THERE IS NO DOUBT.

Harrison Carries New York by Eleven Thousand.

BRICE IS THE ONLY DOUBTER

Chairman Quay Alive to Every Effort at Fraud — Political Drift From the Papers — Hill Also Has a Good Plurality

New York, Nov 7 — The opinion formed last night which gave the state of New York to Harrison, rep., for president and to Hill, dem., for governor is confirmed by later scattering returns. Districts yet to be heard from cast in 1884 a total of 304,720 votes. Reports from New York counties indicate a further gain of 5200 for Harrison. If the scattering precincts not heard from keep up the drift shown in adjoining precincts heard from, Harrison's plurality will be [illegible] and Hill's about 16,000 [illegible].

Corrected returns received from counties in the state so far increase Harrison's plurality to 10,000. Late dispatches have been received from Indiana, and so far as they indicate anything they point to republican gains. Doubt raised by reports that Illinois had gone democratic were dissipated by the latest dispatches from Chicago which say that the republican electoral ticket has a plurality of not less than 20,000. In Connecticut the vote is so close that the official count may be necessary to decide the contest, as has been the case in that state several times before. The unofficial returns received from all but four small towns give Cleveland a plurality of 450. It is probable that he has carried the state by less than 400 votes.

New York, Nov 7 — The congressmen elected in this city are: Sixth district, Fitzgerald, democrat; Tenth district, Spinola, democrat; Fourteenth district, Stahlnecker, democrat; Seventh district, Dunphy, democrat; Eighth district, McCarthy (over Campbell), democrat; Ninth district, Cox, democrat; Eleventh district, Quinn, democrat.

Brooklyn, Nov 7 — The congressmen elected in this city are: Second district, Campbell; Third district, Comas; Fourth district, Clancey; Fifth district, Magner.

Brooklyn, Nov 7 — The result of the election in Kings county was a surprise to the democratic leaders who had expected 23,000 plurality for Cleveland.

FROM A "WORLD" EXTRA

New York, Nov 7 — An extra of the World, dem., says at 7 o'clock A M the probabilities are Gen Ben Harrison of Indiana is chosen president of the Nation and Levi P Morton of New York vice president. The returns thus far received indicate that the tariff reform issue has proven the strongest in the states hopelessly republican. In Illinois, Minnesota, Iowa and Nebraska the democratic ticket made large gains upon the lines foreshadowed by the recent tariff debate in the house. These gains though encouraging have not been sufficient to offset the republican majority in these states and have therefore been of no material advantage to the national democratic ticket. On the other hand the tariff issue has not proven strong in the doubtful states, particularly in New York. The democratic members of the ways and means committee have been re-elected. They represent solidly democratic districts, in the main, however, though there can be no doubt of the popularity of the tariff issue among their constituents. From the latest advices the probable republican gains in the South and East will exceed all expectations. A careful compilation of the congressional returns received at this hour would indicate that republicans will control the next house by from eight to ten majority.

The *Tribune* says the house of representatives of the fifty first congress will be republican by twenty to twenty-five majority. Indications are that this may be slightly increased. The New York delegation will stand eighteen republicans and sixteen democrats. In Connecticut they gain two congressmen and in New Jersey they lose one. Some notable republican gains are recorded in the South in Louisiana and Arkansas, and in the West in Missouri.

A REVIEW OF THE FIGHT.

The Causes That Combined to Defeat Cleveland

New York, Nov 7 — In this state where the battle was fought and won party lines on the presidential issue were closely drawn but the protection war cry made many democratic recruits and in almost every other Northern state too where large manufacturing and agricultural interests prevail the tide seemed to have set in in favor of the republican candidates. In the East notably was the example of Pennsylvania and Massachusetts, which gave largely increased majorities, while in Connecticut the democratic plurality of four years ago was either obliterated or reduced to so low a figure as to leave small margin. The ablest democrats from Hill down could not relieve the minds of the thinking masses of this apprehension. To a fear of industrial impairment is the result of the New York election largely due.

Another factor which contributed materially to the republican victory was the division in the New York democracy between the friends of President Cleveland and Gov Hill. For over a year has this coolness existed between them. The governor however had such elements of strength that it was deemed impolitic to trample upon him outright and he was reluctantly accorded a renomination. The closest friends of Cleveland openly announced their intention of knifing him at the polls and carried their threats into execution. Hill's friends said nothing, but evidently lost no trick as he ran ahead of Cleveland in almost every portion of the state notably in the county of Erie, Cleveland's home, where Harrison had a majority of nearly 3000 and Hill 5000. In Kings county the home of Boss McLaughlin, a friend of Hill, the governor ran some 8000 votes ahead of the president. In this city the friends of the president and the governor were also arrayed against each other. Cleveland being sacrificed to save Hill. The three-cornered fight for supremacy also aided the election of Harrison.

PLACING THE BLAME

The "World" Admired Cleveland's Courage but Doubted His Discretion

New York, Nov 7 — The *World* further says editorially referring to the result: The chief reason for this disaster is the want of adequate preparation for meeting the main issue. Eleven months were not time enough in which to enlighten the mass of thinking voters, educated for a full generation in the belief that taxes promote prosperity and that a tariff regulates wages. Appreciating the enormous power of resistance in this inertia of ignorance the *World* questioned last June whether the president had not in precipitating this issue so near to the beginning of an active campaign done "the right thing at the wrong time." We commend his courage but doubted his discretion. Had the issue been forced a year earlier it is not probable that the errors and sophistries and bugaboos of the protectionists could have prevailed against the plain need of the country for reduction of taxes through reform of the tariff.

HARRISON'S ELECTION ASSURED

Chairman Quay Issues Another Statement to the Public

New York, Nov 7 — Senator Quay, chairman of the republican national committee, issues the following statement: "The republicans on Tuesday carried, by increased majorities, all the states that were carried for Blaine in '84 and in addition have New York by a plurality of 15,000 and Indiana by a plurality of from 4000 to 6000. West Virginia is in doubt. Gen Harrison's election is assured."

AS SURE AS OREGON

Harrison's Plurality Will Be Eleven or Twelve Thousand

New York, Nov 8 — The *Sun* of this morning will say that Harrison has 11,762 plurality in New York state and that Hill has 15,[illegible]. It says the next house of representatives will be so evenly divided between the parties that the official count will be necessary to decide which is in the majority. Its figures show that Indiana gave Harrison a plurality of about 2000. Connecticut is democratic by 101.

The *Tribune* says: Revised returns of the vote for president with careful estimates where authentic figures are lacking give Harrison 11,000 plurality in this state. Returns and estimates from every county completed on as fully a good basis with the *Tribune's* table of pluralities for president show that Hill has a net plurality of about 13,500.

[illegible]

New York, Nov 7 — 11 P M — The unofficial vote of all the counties in the state as far as returns go show a plurality for Cleveland of [illegible] and for Harrison of [illegible], giving Harrison a plurality in the state of 11,[illegible].

BRICE HOPES AGAINST HOPE

He has the Distinction of Being the Only Man Claiming Cleveland's Election

New York, Nov 7 — An *Evening World* extra quotes Chairman Brice of the democratic national committee as having said: "We concede nothing and from the latest returns there is a fair indication that Cleveland has carried New York state."

Following this in the *World* extra is this: "This is what they say at the national democratic headquarters and it was given out as the official utterance of the national committee to a crowd of anxious visitors who thronged the parlors this morning in search of the latest news. The statement is based upon the fact that corrected returns from interior counties of the state show a large cutting down of the earlier Harrison gains and in many of the counties whose pluralities have already been given purporting to have been in full are still found to be incomplete, especially is this true. It is claimed in Kings county, where it is said there will be a fight before the count is completed. When it was learned that Illinois and Wisconsin might be close states, as well as Indiana and Connecticut, telegrams were sent to the chairman of the state committee in each state."

Mr De Forest was the only one at the democratic state central committee rooms. He said: "We are not in as bad shape as we were on the day after election in 1884. We will concede nothing. I have wired to every county for revised returns. Till I receive them I shall claim the state. There are errors in the Kings county returns, though however extensive it is I do not know. The count will be looked after."

At republican headquarters Col Quay said: "I can't say anything until it is all over. Of course Harrison is elected and has undoubtedly carried New York state. I am told that an attempt has been made by democrats in Kings county to steal the state but they can't do it."

In the same issue of the *World* which contains the above in double-leaded type carried over from an earlier edition are these words: "Apropos of Col Brice conceding nothing there is little reasonable doubt Benjamin Harrison will be the next president of the United States."

THURMAN GIVES IT UP.

He Tells a New York "Herald" Correspondent, "We Are Defeated"

New York, Nov 7 — In a 4:30 A M postscript the *Herald* has a special from D. F. English of San Francisco claiming a majority of 800 to 900 for Cleveland in that state.

Also a special from John C. Campbell at Chicago claiming the state for Palmer and stating the electoral ticket is in doubt.

Also a special from Columbus in which Judge Thurman is credited with these utterances: "I see that Brice has sent out a dispatch saying that New York has gone democratic by 15,000. The returns do not bear him out in this, and I cannot see the object of sending out such news. From the figures we have here, after correction, I estimate that the republicans have certainly carried New York by at least 10,000. In fact it looks as if the people of the United States have decided that the tariff is not a tax and they are arbitrators in this case. If they have decided so, nobody will acquiesce in their decision more quickly than I."

"What is your estimate as to Ohio?"

"We have received full returns from about 150 precincts which show an average democratic gain of 1¼ to the precinct. If we should raise the average to 10¼ to the precinct we should carry the state. The precincts heard from are largely city and town voting places and we expected to make our greatest gains in the country, so there is no telling what will happen yet. At best the republican plurality will not be 10,000 and I believe it will not be 5000. I tell you if the national committee had listened to us and had done as Brice and Townsend and I wished them to do we should have carried them. But they not only gave us no money but they took from us money that we had collected. It is a great mistake and has lost us the election."

"You give up the election then?" I asked.

"I do, we are defeated."

A WARNING TO REPUBLICANS.

Any Attempt at Fraud Will Be Promptly Checked

New York, Nov 7 — The republican national committee makes the following statement to the public:

REPUBLICAN NATIONAL HEADQUARTERS, Nov 7.

In view of the claim promulgated by the democratic national committee that they have carried the state of New York for Cleveland and that they are sending telegrams to their national committees to that effect, the republican national committee have sent out to the chairman of each republican county committee of the state the following telegram:

Although full returns from every county in the state show that New York is safely for Harrison by upward of 1[illegible]000 plurality the democrats are telegraphing their county chairmen claiming the state and urging them to pay attention to returns. See that returns are thoroughly guarded until officially canvassed. Prevent fraud at all hazards. In case of necessity, employ counsel and notify us of any tampering with returns. Communicate with your town committee at once if necessary by special messenger.

M. S. QUAY,
J. S. FASSETT.

AN EDUCATIONAL CAMPAIGN

The Biting Sarcasm of the "Sun" on this Dismal November Morning

New York, Nov 7 — The *Sun* editorially says: When a party deliberately buries out of sight the principles on which it was founded and of which it has been for a century the custodian and trustee, when it sends its best men to the rear and surrenders the management of its affairs to a syndicate of cracked intellects and theorists—enthusiasts with just enough shrewdness to half disguise their ultimate purpose—when it abandons politics in a sane sense and makes itself an engine for the propagation of a theory—in short when it goes in for an educational canvass, somebody is bound to be educated. That is what happened yesterday. The great mass of democracy, sound to the core, loyal as ever to the essential and eternal truths of its creed, hopeful, even in defeat, and courageous and unshaken this dismal November morning, is the victim of an educational campaign. It has been educated with a vengeance and at a tremendous cost. It has learned its lesson, and is not likely to forget the same.

PRESS COMMENT

Cleveland May Blame Himself for the Defeat of His Party

New York, Nov 7 — The *Post* this evening takes the ground editorially that Cleveland's mistake [illegible]. The question presented in 1888 was therefore whether the democrats making a straightforward fight for tariff reform under a bold leader could carry New York and with New York either New Jersey and Connecticut in the East or Indiana in the West.

The *Tribune* has an editorial on the result: "There will be great rejoicing throughout the [illegible] of this magnificent struggle [illegible] behalf of protection and loyalty [illegible] united in victory so complete and decisive that [illegible] Nor are there wanting reasons for hope that a republican president may be sustained during the next four years by a republican house of representatives."

The *Mail and Express* (rep.) says editorially this evening: "Cleveland is beaten and retired to private life by his own state, which [illegible] was made here the issue [illegible] protection [illegible] has been [illegible] thoroughly fought out."

PHILADELPHIA PAPERS

Philadelphia, Nov 7 — The *Record* (dem.) says: [illegible] the condition that navigation is [illegible] on Salt river at this season and the Jefferson canal boat is ready.

The Philadelphia *Ledger* editorially says: "It was this unnecessary and most ill advised anti-protective tariff message with its most fateful approving echoes instantly resounding over the Atlantic and the ringing shout of welcome with which the republicans accepted the challenge proffered by Cleveland and the Mills school of revenue reformers that made up the issue the democrats had to meet."

The Philadelphia *Press* editorially says: "The republican triumph embracing the election of Harrison and a republican congress means everything to be welfare of the nation. It puts the stamp of condemnation and defeat upon Cleveland and his British free trade policy, crushes the Mills bill and rescues the country from the agitation and disturbances of the past year."

A CHICAGO OPINION

Chicago, Nov 7 — The *Herald* says the most recusant congress in history stands confirmed in its folly. The president misinterpreted the will of the electorate but he did not the less do right, nor did congress do wrong.

THE EVENING PAPERS

They All Figure That Harrison is Elected by a Safe Plurality.

New York, Nov 7 — Following are the head lines of an extra to the *Evening World*: "A Forlorn Hope. It looked as if Illinois might elect Cleveland but later returns are more and more republican — You may as well call it President Harrison."

The *Telegram* says: "So far the election of Harrison stands recorded as next to certain. New York has shifted to the republican column and made his victory certain if other states remain as they were in 1884."

The *Evening Sun* says: "The latest dispatches indicate that the election of Harrison is assured beyond a question."

The *Evening Post* says: "Returns received this morning leave no reasonable doubt of the election of the republican presidential ticket. Very little has been received from the country districts of this state but there is no reason at this writing to think that the full returns will give a democratic plurality. Indiana is still in doubt." In an editorial on the result it says: "It is [illegible] to go beyond the city of Brooklyn to find proof that Cleveland was beaten in the state of New York not because a majority of voters condemn his policy on tariff reform but because a majority of voters would not return for the presidency a party which nominated a man like David Hill for the governorship."

The *Commercial Advertiser* (dem.) head lines are: "Latest returns indicate the election of Harrison and Morton — A small plurality for republicans in this state — Hill re-elected governor by about 10,000 plurality. Indiana probably republican by a small majority. The republicans will have a good working majority in the next congress."

The extra *World* says: "At 2:30 P M the national democratic committee announced that New York is so doubtful that an official count will be necessary to decide the election. This will take three days."

The *World* says: "Chairman Brice refuses to concede Harrison's election. He has not yet conceded New York state."

FROM THE EVENING NEWS

New York, Nov 7 — The *Evening News*, dem., in a late extra heads up its election matter thus: "Not yet settled — Cleveland depending on Illinois and California — New York state probably republican. Connecticut and Indiana both democratic." The matter thus headed up is as follows: "Result of election for president is still in doubt. The democrats claim Illinois, California and Nevada which would elect Cleveland without New York. As the democrats have undoubtedly carried New Jersey, Connecticut and Indiana it looks as if New York state has been carried by the republicans, as returns from republican counties continue to pour in gains. The latest returns show Harrison's plurality to be about 8000 in this state but many of the counties are estimated. Capt McClellan, secretary of the executive campaign committee, has telegraphed the state committees of Illinois and Wisconsin for the latest returns. Both states are still in doubt. The national committee does not concede New York to the republicans. No returns have been received to show anything more than that the state is close. Connecticut and Indiana have been won. California news is very favorable to democrats and in Illinois there is a firm claim for the democratic presidential as well as the gubernatorial ticket."

In the same edition of the *News* are these editorial expressions: "We [illegible] give up just yet. Cleveland has in all probability lost the state of New York but there is a cheerful prospect that he may yet have a majority of the electoral vote. The republicans claim everything while the latest returns positively insures the states of Indiana, New Jersey and Connecticut for the democracy. This gives the democrats 183 out of the necessary 201 votes with California 8, Nevada 3 and Illinois 22 as doubtful. Illinois is almost certain to elect a democratic governor and the national committee does not give it up for Cleveland."

[illegible]

New York, Nov [illegible] — The *Telegram* [illegible] editorially this evening: "Harrison in the White house [illegible] control of executive patronage and a radical change [illegible] officers [illegible] but in the matter of shaping policy his hands will be tied by a democratic senate [illegible] Cleveland's hands were tied by a republican senate."

THE ALBANY JOURNAL'S FIGURES

Albany, Nov 7 — The *Evening Journal* estimates a plurality of 12,000 for Harrison and 7000 for Hill in New York state. The republicans gain nine assemblymen. The congressional delegation is unchanged in political proportion.

FATALLY SHOT

Wm F. Peer Shot and Killed at the Polls in New York

New York, Nov 7 — At close of the polls yesterday afternoon Dan Harrington fatally shot Wm Peers. It appears that Peers was walking along minding his own business and was knocked down and shot maliciously without any provocation whatever.

AN ASSEMBLYMAN ARRESTED

New York, Nov 7 — An incident of the local fight was the holding of Assemblyman Charles Smith (rep.) in $2000 bail by the United States commissioner on a charge of attempting to prevent voters from freely exercising the franchise. Mr Smith heard of the warrant and gave himself up.

Three men were held in $20,000 bail each on a charge of illegal registration at the Jefferson Market police station to-day.

Indianapolis, Nov 7 — Returns from [illegible] of 9 precincts in this (Marion) county show a [illegible] for the democratic ticket [illegible] rural districts. The labor districts in the city also show [illegible].

Four hundred precincts in Indiana show a net [illegible].

A dispatch received from Fayette county, the home of Chairman Huston of the republican committee, says: "Fourteen out of 15 precincts give a democratic gain of 25 to 40 in the county."

INDIANA VERY CLOSE.

Indianapolis Intensely Excited and Waiting for More Returns.

Indianapolis, Nov 7 — The city has been in a ferment since early this morning. Long before the hour for resumption of bulletins large crowds gathered around the newspaper offices calling "returns! returns!" and clamoring to know the latest from New York [illegible]. As darkness came on the crowd began to grow around the *Journal* premises, standing patiently. At the [illegible] the first returns from New York city and Kings county confirming the previous figures the crowd grew boisterous and hilarious, singing and cheering.

In the corridors of the New Denison the scenes of last night are being repeated upon a modified scale. At the Bates and Grand hotels large crowds are congregated, but no demonstrations are in progress.

Congratulatory telegrams have poured in upon Gen Harrison since this morning and are from all parts of the country. The press will supply access to these telegrams at [illegible] Gen Harrison [illegible]. Under the circumstances he is not disposed to be hasty in the matter, taking the same [illegible] serious view of the election as he [illegible] marked degree throughout the campaign.

It has been a [illegible] day for the crowd at [illegible] the headquarters. The returns from New York have been very depressing, and all eyes were turned to Indiana. At 8 o'clock this evening the committee rooms were packed with seekers after the latest news. Chairman Jewett, Mr Sheerin, secretary of the democratic national committee, and a large corps of assistants had been busily engaged since early morning in receiving and tabulating returns from various parts of the state. When the associated press correspondent called this evening after supper, Mr Sheerin was in charge. When asked for an expression regarding Indiana he said:

"We have heard from fifty four counties officially and taking the figures claimed by the republicans for the rest our returns give the state to Cleveland by from 1500 to 3000 plurality. The republican state ticket is behind the national ticket so that our state ticket will have a larger plurality than that. I think we have gained three and possible four congressmen and we have a good working majority in both branches of the legislature. Our returns are official from every county. Our committeemen send them to us as soon as they can get them exactly."

Outside [illegible] expressed among democrats generally are [illegible] but a great many are conceding the state to the republicans. Meanwhile the faithful keep up their weary wait.

DEMOCRATS GIVING IT UP

They Claim Congressional Gains and a Part of the State Ticket.

Indianapolis, Nov 7 — Nine hundred and fifteen precincts in Indiana give Harrison 143,941, Cleveland 138,307. The same in 1884 gave Blaine 132,571, Cleveland 131,856. This includes all of Marion except four precincts. The official vote of Indianapolis city and Marion county gives Cleveland 238 majority. Secretary [illegible] of the democratic [illegible] committee said [illegible] that it looked [illegible] Harrison had carried the state but it would require the official returns to determine.

[illegible] DESERTED

Indianapolis, Nov 7 — At 10 A this evening the democratic committee rooms were deserted. In the chairman's private room Mr Jewett and three or four assistants were [illegible] on the results of the legislative and congressional [illegible] Sheerin had gone home. OUR NEXT PRESIDENT

How Gen Harrison Passed the Exciting Hours Following His Election.

Indianapolis, Nov 7 — Gen Harrison did not rise very early this morning. At 3 o'clock when bulletins ceased coming for the night the general retired after figuring out from Indiana precincts that showed a net gain of six votes to the precinct which if maintained would give the state republican. This was hopeful even encouraging news. At least it proved good news for the general to go to bed on for he got a good night's rest and is looking and feeling in excellent health and spirit.

At [illegible] were resumed [illegible] about New York.

[illegible] New York [illegible] began to receive a flood of congratulatory telegrams from all sections of the country. Gen Harrison is very conservative about congratulations and wants to feel sure that he is out of the woods before he permits himself to participate in such proceedings. There were a great many callers at the house to-day, in fact the neighbors came in and have taken apparent possession. On the outside a crowd was standing and gazing at the house looking to catch a glimpse of the general as he occasionally passed the windows. The demonstration in the city was of the most enthusiastic character. Large crowds are collected about the Journal building and the new Denison cheering for "Ben" Harrison.

CONGRATULATORY

INDIANAPOLIS, Nov 7.—The following dispatch was received from Chicago:

CHICAGO, Ills, Nov 7.

Hon Benj Harrison, Indianapolis, Ind: [illegible] congratulation upon your election. [illegible] is proud of the fact that her great [illegible] was dedicated by the nomination of our country's next president. FERD W PECK

The following telegram was received to-night by Gen Harrison:

Gen Ben Harrison: Cordial congratulations. New York is [illegible] happy. The republicans are jubilant and democrats shedding tears. CHAUNCEY M DEPEW

THE GENERAL CHEERFUL

INDIANAPOLIS, Nov 7.—Gen Harrison spent the evening in his library receiving election bulletins over a private wire. During the afternoon a number of friends and neighbors dropped in to congratulate him. The rainy weather has been a great safeguard to the general so far as escaping the midnight and noisy demonstrations around his residence. He was in a very cheerful frame of mind to-night reading bulletins complacently and explaining from time to time to a little group the significance or the importance of this or that statement or bulletin. Among his callers were Judge Wm A Woods and wife, and Mr C W Fairbanks.

John S Harrison of Kansas City, the general's only brother, arrived this morning and was among the guests. All the members of the family were in and out of the library during the evening as were Mrs Harrison's guests, Mr Brown of West Virginia and Miss Strickle of Dayton, Ohio.

About 11 o'clock the ladies retired and it was not a great while thereafter before the general did likewise, leaving his son and Mr McKee to sit up for late returns. Some 950 precincts in Indiana had been heard from up to that time and being one half the state the general figured a few moments on this bulletin and then stated with some degree of satisfaction, that the average net gain of about 6¾ votes to the precinct was being maintained. At this rate Gen Harrison's plurality will be in the vicinity of 6000.

DEMOCRATIC GAINS CONCEDED

INDIANAPOLIS, Nov 7.—The Journal has returns showing that the democrats gain congressmen in the first, eleventh and twelfth districts and elect a majority in both branches of the legislature. Eighty six out of ninety precincts in this (Marion) county give Harrison 16 031, Cleveland 16 228. The remaining precincts are democratic and Cleveland's plurality will be about 300. Blaine carried Marion county by a plurality of 128.

THE LAST DITCH

INDIANAPOLIS, Nov 7.—The democratic state committee concede a republican majority of 1500. They claim nine out of the thirteen congressmen and a majority of ten in the legislature on joint ballot.

HARRISON ASSURED OF VICTORY

MINNEAPOLIS, Nov 7.—Attorney General Michener on behalf of the republican committee this afternoon was inquiring in regard to the correctness of the report accredited to Senator Gorman alleging the discovery of errors in returns from Kings county which if corrected would give New York state to the democrats. Col Dudley sent the following to Gen Harrison direct:

NEW YORK, Nov 7.—There is positively nothing in it. Our people are guarding the returns from Kings county and other precincts and counties with resolute vigilance. Fraud is barely possible but will not be permitted if a most perfect watch by honest, brave men can prevent it. The state is now ours. The latest returns are sure to give you 15,000; if there is any change it will be more. W W DUDLEY

AT THE WHITE HOUSE

The President Sat Up and Took His Medicine With His Friends

WASHINGTON, D C, Nov 7.—At the White house last evening the president and a small party assembled in the library and received election news furnished by the associated press over a special wire. Dispatches were also received from personal friends of the president but it was said by one of the executive clerks whom Col Lamont deputed to see newspaper men that nothing whatever had been received from the democratic national committee.

THEY HAVE NOTHING TO SAY

WASHINGTON, Nov 7.—An air of gloom pervaded the White house this morning. The president and Private Secretary Lamont denied themselves to all callers. The latter seems to feel the defeat more keenly than the president. Lamont refused to enter his business office until very late. About noon Mrs Cleveland accompanied by Mrs Folsom and Mrs Harmon left the White house and were driven to Oak View. As she left the executive mansion her face wore a very serious expression. Everywhere words of sympathy for Mrs Cleveland were heard.

The republicans fired cannon to celebrate their victory and democratic office holders are greatly depressed.

Secretary Bayard arrived here this afternoon, but refused to be interviewed.

Secretary Whitney in conversation to-day said: "Well we are whipped and badly at that. There is no use of holding out any hopes of late returns. They can only increase the defeat. I have no excuse to offer. New York city and Brooklyn failed to give us their promised support. I went home and went to sleep when I heard from Brooklyn."

A TALK WITH THE PRESIDENT.

His Relations With Hill Have Always Been of a Pleasant Nature

SAN FRANCISCO, Nov 7.—A Washington special to the Examiner quotes President Cleveland as saying in an interview: "One party has won and the other has lost. That is all there is to it."

"Do you think, Mr President," was asked, speaking of the vote in New York, "that Gov Hill acted in good faith towards you?"

The president laid down a bundle of papers he had been holding in his hand and with more earnestness than he has previously displayed said: "I have not the slightest doubt of Gov Hill's absolute good faith and honesty in his canvass. Nothing has ever occurred to interrupt our kindly relations since we ran on the ticket together as governor and lieutenant governor."

"I would like to inquire, Mr President, how Mrs Cleveland bears your defeat."

"Oh, she feels about it just as I do. You know," continued he, "defeat brings its compensations. We shall now have some time to ourselves and can live more like other folks do."

"Shall you continue your residence at Oak View or return to Buffalo?" I asked.

"I haven't given the subject thought nor shall I for the present. There is no hurry about it. My future movements are as yet wholly unsettled."

DEFEAT CALMLY ACCEPTED

WASHINGTON, Nov 8.—The Post to-morrow will say: The president takes the result calmly and philosophically. He talked quite freely about the returns and the increased republican vote but expressed not the slightest regret in the world at any action he had taken during his administration. He is willing to admit that his position on the tariff and the decided stand he took in favor of revenue reduction may have lost him a good many votes but still maintains if it were to do over again he would follow the dictates of his convictions. The president received no telegrams from the national democratic committee until late this afternoon. From what he has heard however he concedes that he is defeated. He attributes his defeat to no one in particular and says that Hill and Tammany hall treated him with perfect fairness and he has no fault to find at all.

RIOT IN KENTUCKY

Negroes Attack a White Man and One Was Killed

LOUISVILLE, Nov 7.—In an election riot at Bowling Green a mob of negroes attacked Supervisor Wilkerson. He defended himself with his revolver and one negro was killed and one dangerously wounded. A white man was shot through the arm.

Inventions of the Nineteenth Century

The steamboat, the reaper, the sewing machine,
Cars running by night and by day,
Houses lighted by gas and heated by steam
And bright electricity's ray;
The telegraph's click speeds like lightning released,
Then the telephone comes to excel it,
And, to put on the finish, the last but not least,
Is the famed little Purgative Pellet.

Last but not least is Dr. Pierce's Pleasant Purgative Pellet, because it relieves human suffering, [illegible] of human [illegible] comfort and enables [illegible] to enjoy all the blessings and benefits of the age we live in.

OTHER CLOSE STATES

Ohio Republican by About Twenty Thousand.

CONNECTICUT FOR CLEVELAND

Illinois and Minnesota Are All Right and Other States Vote Closely on Party Lines

Latest Returns.

CINCINNATI, Nov 7.—Returns from Ohio continue to show nearly the same ratio of democratic gain over Foraker's vote last year when he had a plurality of something over 23 000. Indications point to a reduced plurality for Harrison. Some estimate it at 13 000 to 15 000. Republican congressmen are elected in the First, Second, Third, Seventh, Eighth, Ninth, Eleventh, Twelfth, Fourteenth, Fifteenth, Seventeenth, Eighteenth, Nineteenth, Twentieth and Twenty first districts, making 15. Democrats are elected in the Fourth, Fifth, Tenth, Thirteenth and Sixteenth districts, making 5. The Sixth is in doubt, both sides claiming the election.

COLUMBUS, Nov 7.—Chairman Cappell claims the state by 24 000 for Harrison. The democratic committee makes no claim but says the vote on the national ticket is close. There seems no doubt but the state is republican and that the republicans made a net gain of one congressman.

THE DEMOCRATS STILL HOPE

COLUMBUS, O, Nov 7.—Interest in election news continues intense. Judge Thurman had nothing to say to correspondents this evening when asked for his opinion. The two state committees are still receiving returns from the state and figuring up gains and losses. The republicans are claiming a plurality of from 25 000 to 30 000 and place their estimate on more or less complete returns from about half the counties in the state. On the other hand, the democratic committee says a complete or conservative estimate of returns from twenty two out of eighty eight counties gives evidence of a democratic gain of a little over 9000 and if this ratio of gain continues, which they scarcely dare hope, they will carry the state. At any rate they say there is no doubt that they have cut down the republican plurality to a small figure. For congress the democrats say their losses balance their gains, and there is yet no certainty that they have not made a net gain. On the other hand the republicans claim a net gain of one, having lost in the Tenth and gained in the Seventh and Twenty first.

AT LEAST TWENTY THOUSAND

CINCINNATI, Nov 7.—All the counties unofficial except six show a plurality for Harrison of 20 431. The six counties not reported gave Foraker, republican candidate for governor in 1887, a plurality of 436.

COLUMBUS, Ohio, Nov 7.—The democratic state committee at midnight say returns so far show a republican plurality of only 17 000 with several of the strongest democratic counties to hear from. The republican committee say their figures show Harrison's plurality over 20 000. No definite returns on congressmen or state ticket.

CONNECTICUT DEMOCRATIC.

But the Legislature Is Republican and Will Choose the Governor

HARTFORD, Nov 7.—Connecticut gives Cleveland for president a plurality of 429 with two towns to hear from, which will reduce it to about 350. Morris, dem, beats Bulkeley, rep, for governor by 1500 with three towns to hear from. Bulkeley will be elected by a republican legislature. The congressional delegation stands three republicans and one democrat. The general assembly is about the same as last year.

Late returns indicate the election of Congressman Edward W Seymour, dem, in the fourth district. By the vote of Newtown his majority is 308. The congressmen are thus equally divided—two each.

HARTFORD, Nov 7.—Sperry of the Post says Connecticut gives Cleveland 384 plurality but an error in New Haven may change it to Harrison.

COMPLETE RETURNS

HARTFORD, Nov 7.—Complete returns give Cleveland 74 905, Harrison 74 519, Fisk 4181. Cleveland's plurality 385. For governor—Morris, dem, 74 944; Bulkley, rep, 73 126; Camp, pro, 4130. For congress Wilcox defeats Lines in the Second district by 886 plurality. Russell, rep, is returned from the Third district. In the Fourth district E W Seymour, dem, is elected by a plurality of 290.

The senate is eight democrats and eighteen republicans; the house is 105 democrats and 144 republicans, a republican majority on joint ballot of 49, against 29 in 1887. The legislature will elect Bulkley as governor.

Miles's, rep, election in the Fourth congressional district is deemed certain. Connecticut will then gain two republican congressmen.

ILLINOIS IN HER PLACE

Both the Republican and State Tickets are Elected

CHICAGO, Nov 7.—This city complete, and the rest of the county, except two small townships which it is not thought will materially change the results, give Cleveland 81 120, Harrison 80 263, a plurality for Cleveland of 859. The county complete in '84 gave Blaine 69 251, Cleveland 60 609, a plurality for Blaine of 8642. As there has been no doubt that the state outside of Cook county went heavily for Harrison, though possibly by a somewhat less plurality than for Blaine in '84, there would now appear to be absolutely no question, notwithstanding the great gain for Cleveland in Cook county, that it is safe for Harrison.

The vote of eighty four counties in Illinois, including Cook, shows majority for Harrison of 38,048; Cleveland 19,378. The remaining eighteen counties in '84 gave Blaine 5884, Cleveland 6542. Assuming that these eighteen counties, not yet fully reported, give the same result as 1884, the state will now give a plurality for Harrison of 18,912. It is safe to say therefore that Harrison's plurality will be about 18,000.

CHICAGO, Nov 7.—The associated press has just completed a count on the Illinois gubernatorial vote, and they say Fifer is elected by 7000 majority.

The democratic local ticket in Cook county (Chicago) fell considerably below the vote for Palmer and Cleveland. Excepting legislators the party does not elect a man in the county.

NO DOUBT IN MINNESOTA

The Republicans Simply Make a Clean Sweep as Usual

ST PAUL, Nov 7.—The Pioneer Press says editorially: It is assured that Harrison and Morton will carry Minnesota by a majority which though considerably below that of Blaine is entirely satisfactory. The contest on the state ticket is closer but there is no reason to doubt the result. All republican candidates will be elected.

Merriam (republican) is elected governor by from 8000 to 10 000, and Lind, Comstock and Snyder (republicans) are elected to congress. The first and third districts (Wilson's and McDonald's) are still in doubt and are claimed by the democrats. The democratic central committee also claims the election of Wilson for governor by a small plurality, but Merriam has gained on McGill's over the vote of two years ago in nearly every town heard from, so the republicans feel confident.

ST PAUL, Nov 7.—The Globe says Wilson, dem, is elected governor and Harrison and Morton carry the state by 12 000. The Pioneer Press gives Merriam, rep, for governor a plurality.

The republican state committee claims a plurality of 25,000 for Harrison and Morton, 16,000 for Merriam, republican candidate for governor, 20 000 for the balance of the state ticket, and the election will give the republicans the congressmen.

Republicans claim the election of Merriam, rep, for governor by 16,000; democrats concede his election by a small plurality.

ST PAUL, Nov 7.—The Pioneer Press estimates Harrison's plurality in Minnesota at 28,000 and Merriam's (rep) for governor at 20 000. The Globe (dem) concedes Harrison 20 000 and Merriam 10,000 plurality. Republican congressmen are elected in all the districts in the state.

MISSOURI

The State Democratic But by Decreased Majorities.

ST LOUIS, 4:30 A. M.—Nov 7.—Neidringhouse and Frank (republicans) defeated the democratic candidates for congress in the eighth and Ninth districts by 2500 majority. Kimball, republican candidate for governor, carried the city by 5000 majority. The majority for the republican presidential ticket is about 400 less. The returns from the outside of the city are coming in very slowly.

ST LOUIS, Nov 7.—The official returns of the vote in this city show the most extraordinary and altogether surprising results. Harrison's majority is over 6100. Kimball's majority for governor is over 10 000 and the republican city ticket ranges from 3500 to 8000. It is known that the republicans gain three congressmen with many important points to hear from.

STILL CLAIMING THE GOVERNOR

ST LOUIS, Nov 7.—Returns from fifty nine towns and precincts outside of St Louis and Kansas City and two wards of Moberly give Cleveland 1 011, Harrison 1169; Francis, dem, for governor 1 128 and Kimball, rep, for governor [illegible]. Kimball seems to be running well with Francis in the state and this evening the republican state committee is claiming his election by a safe plurality.

ST LOUIS, Nov 7.—The democratic state committee has complete and incomplete returns from about 50 out of 114 counties in the state which indicate that Cleveland will have a plurality of 30 000 in the state and Francis for governor will have a plurality of 14 000. These returns embrace the vote of St Louis, Kansas City and other large cities in the state.

REPUBLICAN GAINS

ST LOUIS, Nov 7.—The democratic state committee concedes the fate of Clardy, dem, for congress in the Tenth district. This makes a republican gain of three congressmen in St. Louis district.

PENNSYLVANIA

A Gain of One Congressman and a Plurality of About 73,000.

PHILADELPHIA, Nov 7.—Returns from 54 counties (including Philadelphia) out of 67 indicate that Harrison will have 65 000 plurality in Pennsylvania.

PHILADELPHIA, Nov 7.—Returns from 54 counties (including Philadelphia) out of 67 indicate that Harrison will have 65 000 plurality in Pennsylvania.

Pig Iron Kelley and O'Neill are re-elected to congress.

Congressional returns in this state show that the delegation will stand twenty one republicans against seven democrats.

PHILADELPHIA, Nov 7.—Returns from every county in the state show a plurality for Harrison of 72 948, a democratic gain of 8071 as compared with the vote for president in 1884. One republican congressman is gained.

WISCONSIN SAFE.

A Majority of About 20,000 and the Legislature

MILWAUKEE, Nov 7.—Two hundred and sixty-seven towns including the city of Milwaukee show a net republican gain of 3941. Indications are that the state has gone republican by 15 000. The republicans gain one congressman in the Fourth district.

MILWAUKEE, Nov 7.—Returns are coming in slowly and in a less satisfactory shape in Wisconsin than four years ago, but enough are in to make it certain that the state has gone for Harrison by at least 18 000 and probably 21 000. The legislature is overwhelmingly republican, there being a republican majority on joint ballot of over 50 out of a vote of 133. Of the nine congressmen seven are republicans and two democrats.

IOWA ALL RIGHT

Two Congressmen With Free Trade Leanings Defeated

DES MOINES, Nov 7.—Harrison's plurality in Iowa will probably exceed 30 000. Weaver in the sixth district and Anderson in the eighth are both beaten, giving the republicans every congressman in the state but one, McMann's in the second district, a gain of two.

A DEMOCRAT WANTED FOR BRIBERY

DES MOINES, Iowa, Nov 7.—The sheriff of Adams county arrived here to-day with a warrant for the arrest of E H Hunter, chairman of the democratic state central committee, on a charge of bribery. A democrat was arrested at Corning, Hunter's home, yesterday on a charge of repeating. He admitted that he voted in two different townships but made affidavit that he voted the second time at the instigation of Hunter, who gave him $2 for doing so. The sheriff was unable to find Hunter, who had skipped out of town, leaving word that he had gone to Chicago.

DES MOINES, Nov 7.—Twenty three counties, complete vote, give republican gains that indicate a republican plurality of 30 000 for Harrison. The state ticket is but a little behind, and the railroad commissioners are not scratched as badly as was supposed. The republican candidates will all be elected. The republicans have elected every congressman but one by sweeping majorities. Weaver and Anderson, independents, in the last congress from Iowa are both defeated by large majorities. The only democratic congressman elected is Hayes, in the Second district.

MICHIGAN.

DETROIT, Nov 7.—Estimates from democratic sources on the election in Michigan agree with those of republican on national and state tickets, but differ on the result in congressional districts. It is conceded that Harrison has carried the state by about 12 000 and that Luce will have some 3000 less.

DETROIT, Nov 7.—Republicans claim every congressional district except the First, while the democrats concede defeat in the Fifth and say the Sixth and Eighth are in doubt.

DETROIT, Nov 7.—The election of Wheeler, rep, in the Tenth district over Fisher, the present incumbent, is conceded. This leaves but one district, the Seventh, in doubt, and is a republican gain of three. Should Whitney, dem, be re-elected in the Seventh, which is now probable, the delegation will stand nine republicans and two democrats. Additional returns received up to noon do not materially change the vote for governor. Luce's plurality will exceed 10 000.

DETROIT, Nov 7.—Michigan has gone republican by a plurality of 13 000 to 18 000 on the electoral ticket. Luce, rep, for governor runs behind the rest of the ticket 6000, owing to the opposition of the liquor men. The republicans gain two congressmen, perhaps three. The legislature is safely republican on joint ballot, insuring the election of a republican senator to succeed Palmer.

DETROIT, Mich, Nov 7.—Sufficient returns have been received from all the congressional districts in Michigan with one exception to insure the election of eight republicans and two democrats, a republican gain of two. The result in the Tenth (Fisher's) district is in doubt and may require the official count to decide. Timothy Tarsney is defeated.

DELAWARE

WILMINGTON, Nov 7.—The state has gone democratic on the national ticket but the legislature is probably republican.

WILMINGTON, Nov 7.—The state is democratic for president but the legislature is probably republican.

WILMINGTON, Del, Nov 7.—The legislature is still in doubt. The election of two members gives the democrats control of the next general assembly.

WILMINGTON, Del, Nov 7.—An Every Evening bulletin says Kent county has gone democratic, and the legislative ticket is elected by 169 plurality. This insures the election of a democratic senator to succeed Saulsbury.

WEST VIRGINIA

CHARLESTON, W Va, Nov 7.—The republican state and county ticket is carried with probably one exception, the prosecuting attorney. No definite news can be received before to-morrow.

PROBABLY REPUBLICAN

WHEELING, W Va, Nov 7.—Fourteen out of twenty-four precincts, casting one third of the vote of the state, show republican gains of 1662. If the corresponding gains are made in the rest of the state it will give 600 republican majority.

WHEELING, W. Va., Nov 7.—Atkins, republican, is elected over Pendleton, democrat, for congress, in the First district by 600 majority.

NEW JERSEY

JERSEY CITY, Nov 7.—The democratic state committee claims the state by 8000, the senate by 11 to 10 republicans, and the assembly by 31 to 29 republicans. There are several districts in doubt, however, and the opinions are based on very meager returns from democratic sources.

TRENTON, N J, Nov 7.—The democratic plurality in New Jersey is now estimated at 5000. The legislature will be democratic by a close vote. The senate stands democratic 11, republicans 10. This is the first time in ten years that the democrats have had the senate. The lower house is claimed by the republicans to be theirs, but the democrats say they have a majority. The closeness of the legislature will make the contest for United States senator next winter unusually exciting.

TRENTON, N J, Nov 7.—The latest returns show the democrats will have a majority of three on joint ballot in the next legislature.

THE CONGRESSMEN

TRENTON, N J, Nov 7.—The congressional delegation of New Jersey is as follows: First district, C R Bergen, rep; Second district, James Buchanan, rep; Third district, J Geissenhainer, dem; Fourth district, F Fowler, dem; Fifth district, C D Beckwith, rep; Sixth district, Herman Lehlbach, rep; Seventh district, Wm McAdoo, dem. State legislature will stand: the democrats 31, republicans 29, a democratic majority on joint ballot not including doubtful districts.

COLORADO

THE REPUBLICANS SWEEP THE STATE

DENVER, Nov 7.—The excitement in the city last night and to-day over the election was very intense, each bulletin being greeted with rounds of yells by the republicans, who are confident of their success in the national ticket. The democrats, while acknowledging their chances are very doubtful, have not entirely given up all hopes of carrying New York. The returns in the Colorado election, both state and in Arapahoe county (Denver), are unusually slow coming in. Up to this hour, 4:40 P M, only partial returns have been received. These indicate the election of the republican ticket by majorities ranging from 8000 to 12 000. The next general assembly will probably be as follows: Senate 6 democrats, 13 republicans; house 10 democrats, 39 republicans. Partial returns from 23 counties give Cleveland 5049, Harrison 7664; congressman Townsend, rep, 7402, Macon, dem, 4749; governor Cooper, rep, 6946, Patterson, dem, 5113. Complete returns from 25 precincts in the city and county out of 71 give the following vote: Harrison 4765, Cleveland 3527, Townsend 4691, Macon 3308, Cooper 4370, Patterson 3589.

TENNESSEE

NASHVILLE, Tenn, Nov 7.—The entire state has gone democratic by an increased majority. The congressional delegation remains unchanged.

CHATTANOOGA, Nov 7.—With nearly complete returns from this, the third congressional district, the republicans confidently believe that Evans, republican, is elected to congress by 300 or 400 majority. The democrats however do not admit Bates's defeat. The excitement is intense and business is virtually suspended.

FIRST REPUBLICAN CONGRESSMAN

CHATTANOOGA, Tenn, Nov 7.—H Clay Evans, rep, defeats Creed F Bates, dem, for congress from the third congressional district of Tennessee. Evans's majority is 80. This is the first republican congressman ever elected from the district.

NEBRASKA

LINCOLN, Nov 7.—Estimates from returns already received by the State Journal give Nebraska to Harrison by between 30 000 and 35 000. For governor Thayer, republican, will have 25 000 majority.

OMAHA, Neb, Nov 7.—Only fragmentary reports have been received from the interior of the state. Not more than half a dozen counties have sent returns even for a basis in an estimate. The canvass at Omaha and Lincoln and several other large towns is not yet completed. The state is safe for 25 000 republican majority except on governor and attorney general. The first congressional district is close, but it is generally conceded that Connell, rep, is elected.

KANSAS

ST LOUIS, Nov 7.—In Kansas 218 townships and precincts give Harrison 37 389, Cleveland 16 257, Humphrey 31 791, Martin 17 435.

TOPEKA, Kas, Nov 7.—Returns have been received from every county in Kansas. An estimate by Chairman Booth from reports received gives Harrison 70,000 majority over Cleveland and 65 000 for the entire republican ticket. The legislature is almost solidly republican.

SOUTH CAROLINA

COLUMBIA, S C, Nov 7.—The republican vote is small. The democrats carry the state by 35 000. Returns indicate the election of every democratic candidate for congress.

CHARLESTON, Nov 7.—Serious opposition to the democrat for congressman was in the Seventh district. Elliott, dem, is elected by about 2000 majority.

NEVADA.

RENO, Nov 7.—In Nevada 43 precincts out of 172 give Harrison 3147, Cleveland 2237, the same relative vote as in 1884. Thirty five precincts give Bartine, republican, for congress 1984; Cassidy, democratic, 1683. The republicans claim the state.

KENTUCKY

LOUISVILLE, Nov 7.—The latest returns show that the democrats have carried the first nine congressional districts, with much the best prospects in the tenth. The eleventh has re-elected Finley, republican. Cleveland's majority is about 40 000.

NEW HAMPSHIRE

CONCORD, Nov 7.—Returns from all but twenty four towns and wards in the state give Harrison 43 100, Cleveland 40 421, Fisk 1552. The republicans will have 33 majority on joint ballot, being the same as in '86.

MASSACHUSETTS

BOSTON, Nov 7.—All but two towns in the state have been heard from, and give Harrison 183 447, Cleveland 151 990, Fisk 8641. The same towns in 1884 gave Blaine 146 613, Cleveland 122 254, Butler 24 376, St John 9916.

VIRGINIA.

RICHMOND, Nov 7.—Great excitement prevails here to-day in striking contrast with the quiet situation of yesterday. Cleveland has carried the state by a reduced majority. The democrats elect six congressmen and the republicans one, with three doubtful.

FLORIDA

JACKSONVILLE, Fla, Nov 7.—Florida gives the Cleveland electors and democratic state ticket a majority of something less than [illegible].

DAKOTA

BISMARCK, Dakota, Nov 7.—It is estimated that Matthews, the republican congressional delegate, is elected by a large majority.

WYOMING TERRITORY

CHEYENNE, Nov 7.—It is estimated that Carey (rep) is elected delegate by 1200 majority.

LOUISIANA

NEW ORLEANS, Nov 7.—Cleveland's majority in the state is estimated at 30 000.

ON ITS OLD CAMPAIGN GROUND

The Republican Party Wins the Victory Upon Facts and Principles

CHICAGO, Nov 7.—The Tribune presents a table of electoral votes which gives Cleveland 168 and Harrison 233. It says editorially: The battle has been desperately fought, and to-day the republican party is on its old campaign ground from which it was driven four years ago, and has come to stay.

The republicans lost the fight four years ago because the campaign was forced upon them as a personal one, and because it was characterized by detractions, slanders and libels. This time the battle has been fought upon principles. The democrats have faced republicanism instead of Mulliganism, issues instead of invectives, facts instead of slanders, and they have gone down before them. They have tried desperately but ineffectively to put the conflict upon side issues and personal complications, but they have been resolutely held to the merits of the contest. They have been kept squarely at the front and have been whipped.

The Tribune figures the next senate republican by 38, democrats 37, one state to hear from. House, republicans 170, democrats 150.

ANOTHER CONCESSION

Albany, N Y, Nov 7.—The Argus, dem state paper, gives Harrison a majority of 10 000 over Cleveland.

CALIFORNIA IS SAFE

Harrison Will Have a Handsome Plurality.

THE DEMOCRATS STILL HOPING

Returns Are Coming in Very Slowly and the Count in San Francisco Will Not Be Completed Till This Afternoon

SAN FRANCISCO, Nov 7.—From advices received up to 10 A M both the Chronicle and Examiner say this morning that their respective parties probably have a plurality in California.

The Examiner says editorially: As we go to press the result of the presidential election remains in doubt as in 1884. New York, New Jersey, Connecticut and Indiana are so close that the full count will be necessary to decide how they have voted. California is almost certainly democratic and in Illinois Cleveland and Harrison are running neck and neck, with chances in favor of Cleveland.

The Chronicle claims California for the republicans by 8000 or 9000 and claims the election of Harrison.

The Examiner holds that the supreme judges on the democratic ticket are probably elected.

The Chronicle in its issue this morning says editorially: Returns received till 3 o'clock show the interior has been carried by the republicans by a handsome vote. Their victory in the state outside of the city is complete. Harrison has a plurality of from 10 000 to 12 000 in the interior. In addition to this splendid result congressional districts outside of the city give majorities for the republican candidates. Returns from the interior as far as received indicate plainly that the republicans have likewise won a victory in the assembly and senatorial districts. The vote for chief and associate justices of the supreme court as far as received show republican pluralities. Beatty (republican) leads Searls (democrat) by a vote of 9874 to 9213. Works (republican) by a vote of 9 13[illegible] leads Sullivan (democrat) by 61.

BOTH SIDES CLAIM IT

But There Seems No Doubt of Harrison's Carrying the State

SAN FRANCISCO, Nov 7.—It is expected that the canvass of the vote of the city of San Francisco will be completed by to-morrow afternoon. The republican state committee estimate that the democratic plurality in the city will be about 5000, but contend that outside counties furnish a republican plurality of 14,000, and that the republican national ticket is elected by 9000 plurality. The prohibition vote so far as canvassed falls below that of 1884.

M H DeYoung, chairman of the subcommittee of the national executive committee, telegraphed Chairman Quay to-night that all the Pacific coast states had gone for Harrison, and California particularly by a rousing vote of 9000.

The estimate of the democratic state committee does not vary from the one made earlier in the day of a probable democratic plurality of 2000 to 3000 in the state.

Complete election returns have been received from five counties in the state as follows: Contra Costa—Harrison 1518, Cleveland 1160, Fisk 47, Curtis 11.

Marion—Harrison 962, Cleveland 846, Fisk 9.

Napa—Harrison 1752, Cleveland 1483, Fisk 36, Curtis 7.

Sacramento—Harrison 4620, Cleveland 3357, Fisk 74, Curtis 82.

San Benito—Harrison 668, Cleveland 798, Fisk 89.

San Joaquin—Harrison 2848, Cleveland 2838, Fisk 235, Curtis 40.

Twenty two thousand seven hundred and four votes counted in this city out of a total of 55 340 give Harrison 10 915, Cleveland 11 789.

THE SURPRISE IN MONTANA

The Republican Candidate for Delegate Elected by About 5000

HELENA, Mont, Nov 7.—The majority for Carter, rep, for delegate over Clark, dem, continues to grow and now stands about 4000, with probabilities that it will go to 5000. The miners cut Clark's throat relentlessly when it was expected that they would be his main strength. The surprise over the result is general among democrats and republicans alike. Carter and Claggett are the only republicans ever elected delegates from Montana. It is a complete political revolution.

THE SACKVILLE AFFAIR.

A Difference of Opinion in Regard to the Blue Book.

LONDON, Nov 7.—The Daily News says the blue book on the Sackville affair considerably improves the position of President Cleveland and Secretary Bayard. Lord Salisbury's error lay in not perceiving that the recall of Sackville involved no personal discredit.

The Standard considers that the blue book acquits the foreign office, and shows that Lord Salisbury acted with dignity and discretion, and removes the only extenuation possible to plead for Cleveland.

The Times says: "The blue book confirms our previous opinion. It emphasizes Lord Sackville's indiscretion."

NEGROES AGAINST WHITES

Three of the Latter Shot—Further Trouble Feared

WASHINGTON, Nov 7.—A special to the Post from Norfolk, Va, says: "A riot occurred in Portsmouth about 8 o'clock to-night between whites and blacks. Four hundred negroes marched down High street, the principal thoroughfare in the city, singing 'Hang Grover Cleveland on a sour apple tree.' At the corner of Dinwiddie street a large party of white men were congregated [illegible] white [illegible] and a negro had [illegible]. The negroes came to the rescue of their comrade and were charged by the whites. Hardly had the fight commenced before shots were fired by the negroes. Then the whites opened fire, and after about forty shots had been fired the negroes retreated. The whites then discovered that three of their men had been wounded. Samuel Oast was shot in the leg, James Maloney in the abdomen and John Ruger in the eye. The two latter are probably fatally wounded. Immediately after the riot and after the negroes had retreated the whites began arming themselves. Everybody is now armed. Mayor Baird has called out the Old Dominion Guard and 100 special policemen have been sworn in. The excitement is intense and the negroes are reported forming just outside the city. Another outbreak is feared. A detachment of the guards will be sent to disperse the mob of negroes."

OPINIONS IN ENGLAND

"And None so Poor to Do Him Reverence."

SAVE HIS OLD ADMIRER, THE [illegible]

London Papers Agree That Sackville Has Been Avenged and Glory in the Defeat of Cleveland—Fears and Hopes.

LONDON, Nov 7.—The Times says: "Though we believe President Cleveland's internal policy and his administration is more remarkable for capacity and [illegible] than anything to which the republicans can point in [illegible] years, we cannot profess [illegible] at an event which may be [illegible] as an appropriate penalty for his discourtesy. His subservience to the meanness of Irish politics and his culpable neglect of the decencies of international intercourse [illegible] not improbable that President [illegible] change of front in the fisheries affair and Secretary Bayard's treatment of Lord Sackville alienated or at least cooled the friends of purity reform and national dignity [illegible] the corrupt demagogic rule of the republicans had driven to the opposite. In respect to his fishery policy there is no reason why Mr Harrison [illegible] he has courage to shake off the [illegible] of the machine may not [illegible] and even surpass President Cleveland. [illegible] are sincerely sorry that the change of government involves the retirement of Mr Phelps who has performed his duties with marked ability and adroitness and [illegible] esteem and friendship."

NEITHER REGRETS NOR REJOICES.

The Standard says: "Never was a more absurd fiction than that British gold was lavished to secure the defeat of Blaine and his nominee or that England would be mortified at the overthrow of President Cleveland. Of all the persons in the [illegible] that we have the least reason to be grateful to is President Cleveland. Cleveland is one of those who would play false and yet [illegible] rightly win. His halfhearted [illegible] demagogism and statesmanship [illegible] taneously caused him to lose [illegible] abroad as well as to forfeit the confidence of the great democratic party of America [illegible] could sweep the Irish from the ballot [illegible] if they pleased. At the same time we have little cause to rejoice at the triumph of the republicans. The possible effects of Harrison's [illegible] the foreign relations of America cannot be regarded as favorable. We have no [illegible] to regret or rejoice."

A KIND WORD.

The News says: "What has happened in America is parallel to what is happening in England. A section of influential republicans who revolted four years ago after much talk of forming a national party have mainly returned to their old allegiance. Though President Cleveland will depart from the White House with all the honor of a dignified and successful administration, it can scarcely be said that he opened up a new era in American politics that was proclaimed for him. His defeat is a sore disappointment to the reformers."

A DISAPPOINTMENT.

The Post says: "President Cleveland's term of office has not justified the hopes with which Englishmen regarded his election. His attitude toward England has been, and [illegible] would again be friendly [illegible] for election purposes be proved [illegible] equally ready with his most [illegible] nents to flout England. It is impossible for Englishmen not to feel a small gratification at the complete failure of such unworthy tactics. For the rest England will regard the change with indifference. It would be unfair to lay over much stress on Blaine's reckless expressions against England. The two countries have lived [illegible] under previous republican governments and can again."

OTHER PAPERS.

The Daily Telegraph says: "It would flatter both ourselves and possibly our American kinsmen if we said there was any keen interest here in the election or any emotion at Harrison's success. As far as they had any preference the English wished well to the democrats, but recent events tended to show there were six of one and half a dozen of the other."

The Daily Chronicle attributes the result in no small measure to Blaine's prudence. It says: "It is pretty well understood that Harrison is a marionette, and that Blaine pulls the string. The republican ascendancy stifles any lingering hopes that the labors of the fisheries commission would be ratified."

A CANADIAN EXPRESSION.

OTTAWA, Nov 7.—The Evening Journal says: "It may be that the republican victory saves Canada some immediate trouble. The democrats were so committed to the retaliation principle, to say nothing of the embroilment of the [illegible] executive with Great Britain by the Sackville business, that very little friction might have necessitated Cleveland's enforcement of retaliation. We do not [illegible] the republicans are any more friendly than the democrats, nor even as much so, but they at least can enter into fresh negotiations with Great Britain or Canada without going back on any official [illegible]. After all the so-called Irish vote has no appearance to have had any effect on the election. The election was decided by New York state, and New York state was decided by increased republican votes in country districts—that is among the farmers and the villages where the Irish vote is not decisive."

VOTE OF THE STATE.

Oregon Will Give Harrison About 8000 Majority.

LINN COUNTY GOES REPUBLICAN

Official Returns Received From Several Counties—Others Nearly Complete, From Which Estimates Are Given

All returns received from the state have been carefully tabulated in this office, and a correct comparison made with the vote cast in the same precincts last June for congressman. No intelligent comparison can be made with the vote for presidential electors four years ago because of the creation of four new counties since that time and of many new precincts in all counties both new and old. When the counties are given complete this comparison can then be made.

About three-fourths of the total vote of the state has been received, of which Harrison has received 2[illegible] and Cleveland [illegible]. The same precincts in June gave Hermann 23,08[illegible], Gearin 17,3[illegible]. Harrison's plurality is now 5[illegible] as against 573 in the same precincts in June. As the above figures include Multnomah county returns so far as received it will be seen that the state has overcome by nearly one hundred the democratic gain in Portland and the republican majority is now slowly but still steadily creeping upward.

A careful estimate upon the total vote indicates that the increase will be about 6000, which denotes an increase to the majority of the state in the past year of fully four times that amount. If the present ratio of republican gain continues the majority which Oregon will give Harrison will be close to 8000.

Following is a summary by counties of the returns received so far:

Baker—Fourteen precincts give Harrison 80[illegible], Cleveland 702; estimated majority [illegible]9.

Benton—Nine precincts give Harrison 899, Cleveland [illegible]; estimated majority [illegible].

Clackamas—Twenty-five out of twenty-eight precincts give Harrison 1381, Cleveland 936, a net republican gain of about; estimated majority 500.

Clatsop—All but one precinct, which casts about twenty votes, gives Harrison 1012, Cleveland 690. The other precinct will not change this majority.

Columbia county complete—Harrison 614, Cleveland 438.

Coos—Only three precincts reported; estimated majority 250.

Crook and Curry—No report.

The same precincts gave in June 1888 for Hermann [illegible], for Gearin, dem, [illegible]. The remaining six precincts will not materially change the result, their total vote being about 60[illegible].

Personal and General Notes

San Francisco, Nov 7—T. K. Harrah of Virginia and Daniel McCusker, an old California miner of '49, returned to-day on the [illegible] from the wilds of the Yukon river, where, for nearly three years past, they have been digging for gold. One of them said: "Chief Engineer Ogilvie of the Canadian geological survey, who is running a line for the government between Northwestern British Columbia and Alaska, stayed with us last winter with his corps of seven men. Now he is surveying a great stretch of over 2000 miles via the Great Slave lake down the McKenzie river. He expects to get out about Christmas on the ice with dog teams. Ogilvie is having a bitter time of it among those frightful mountains, but I do not doubt that he will succeed. He is working through unknown wilds."

C. H. Ingram of Eau Claire, Wis., B. I. Hutchings of Milwaukee, J. C. Thompson of Rochester, Minn., and John Merrigan of Michigan, lumbermen, are in the city. They are looking for timber lands. Some are in quest of sugar pine, while others are looking for redwoods. They have recently made purchases in Oregon and Washington territory.

Shipping.

San Francisco, Nov 6—Clearances—Ship Wilna, Nanaimo. Departures—Steamer Columbia, Portland.

The Life of Gen Sheridan

Frank A. Burr and Richard J. Hinton, both well known and brilliant writers, are the authors of the life of Gen. Sheridan which has just been published. Their work, which is lavishly illustrated, deserves high praise, its only defect being the absence of maps and plans illustrative of battles. The story of the general's boyhood, of his splendid campaigns, of his services in Louisiana and in Chicago after the war and during the fire, and of the pathetic ending of his life and his solemn funeral rites, are told in graphic detail. There is little left to be added to the public or private history of the man. The writers explain that they had no intention of interfering with or anticipating the publication of Gen. Sheridan's Memoirs. They began their work at a time when he was seemingly in good health, intending to have it in readiness for what they believed would come in the near future—his nomination for the presidency. Their labors were nearly finished when he was taken ill, and all they had to do to complete their task was to add the melancholy narrative of his death and burial. This explanation disposes of the report that the present work was hurriedly prepared in order to forestall the memoirs. Admirers of Sheridan, and their number is legion, will probably desire to have both his own story and that of Burr and Hinton; [illegible] supplement the other. (Life of Gen. Philip H. Sheridan, Its Romance and Reality, by Frank A. Burr and Richard J. Hinton. Illustrated. Providence: J. A. & R. A. Reid, publishers.)

Killed at the Polls

Santa Fe, N. M., Nov 7—A report from Valencia county says that in the trouble between republican and democratic judges of election at San Rafael over an attempt of the former to secure the poll books and ballot boxes, one of the judges, an old time citizen, was shot through the heart and instantly killed by the attacking party, who immediately afterwards escaped to the mountains.

Fatal Boiler Explosion

The Republicans Carry the Territory by Over 5000.

KING COUNTY BACK IN LINE AGAIN

The Council Republican, Likely Eleven to One—Kittitas Joins the Procession. Some of the Majorities

The returns continue to come in very slowly from Washington territory, this being due to the amount of cutting on local tickets, thus adding to the trouble of counting the vote. Enough is known to assure Mr. Allen's election by over 5000 majority. The republican majorities in the counties are very large, in [illegible] one instance, Spokane for example, way beyond what any one dreamed of. The following table, containing very close estimates in most instances on nearly complete returns, will indicate about how badly the democrats feel:

The republicans have made almost a clean sweep of the councilmen. It will be remembered the last council was a tie. The next one, if it ever meets, which is now not at all likely, will stand ten to two or probably eleven to one. The councilmen elected are as follows [Democrats in italics]:

First district, *B. L. Sharpstein*; second, ——; third, T. I. Smith; fourth, F. B. Hyde; fifth, J. M. Snow; sixth, Charles Brown; seventh, C. E. Forsyth; eighth, John F. Soule; ninth, W. J. Thompson; tenth, John R. Kinnear; eleventh, ——; twelfth, Allen Weir.

In the second district D. T. Welch, republican, is probably elected over M. M. Godman, democrat, and in the eleventh John B. Ault likely has defeated M. J. McElroy, democrat.

The house will stand about as follows: First, W. H. Upton and F. J. Powell; second, ——; third, W. S. Oliphant; fourth, I. S. Lenn and *J. V. O'Dell*; fifth, Charles I. Laughton; sixth, *C. R. McMillan*; seventh, ——; eighth, J. N. Power; ninth, C. S. Rinehart; tenth, L. B. Clough; eleventh, G. H. Stevenson; twelfth, Thomas Irving; thirteenth, ——; fourteenth, ——; fifteenth, J. C. Taylor and Ira A. Town; sixteenth, J. T. Blackburn, J. H. Jones and W. V. Rinehart; seventeenth, J. J. Edens; eighteenth, J. E. Tucker; nineteenth, *William Payne*.

Voorhees's lost over vote of two years ago over 100. The sheriff elected is W. R. Marquiss, auditor, J. A. Kellogg, and one commissioner, ——. The democrats elected treasurer.

CLARKE.

The republicans of Clarke county are jubilant over the splendid victory they have gained, having elected their entire ticket, legislative as well as all county. Voorhees's majority of 508 two years ago is offset by Allen's majority of more than 400 this time, indicating a change of votes by 213 of all the votes in the county. Never before in the history of this county was there such an intense excitement over the results of the presidential election. The telegraph office was surrounded by hundreds of excited people until 2 o'clock in the morning. KING

At midnight C. H. Hanford, chairman of the territorial republican central committee, says the count for King county is about half in and Allen is 730 ahead. In the whole territory Allen has a majority of 6400 with nine counties to hear from. Mr. Hanford claims Allen's majority will be over 7000. On account of the great amount of scratching the count was very slow throughout this county and especially in this city. No account was kept of the few principal precincts in this city and it will be necessary for accurate reports to wait for an official count.

The result in the county as far as counted gives for delegate, Allen 1485, Voorhees 1005, Greene 170; adjutant, O'Brien 1176, Butler 730, Brown 98; brigadier, Curry 1170, Hunt 779, Vrooman 197; prosecuting, Newlin 1414, Blaine 904, Smith 185; councilmen, Kinnear 1229, Ronald 805, Watts 110, Dudley 86; joint council, Ault 1227, McElroy 843, Denny 12[illegible]; representatives, Blackburn 1238, Peters 716, [illegible] 2[illegible]3, Snyder 131, Jones 1427, Newton 965, Willis 107, Rinehart 1309, Hart 794; probate, Osborn 1272, Gilman 970, Post 182; Loomis 168; commissioners, [illegible] 1120, Maddocks 779, Wilks 113, Ward 111, Taylor 1127, Hayes 68, [illegible] 9[illegible], Wells 93, Woodin 1207, Hawley [illegible]1, Ammunds 163, Northup 1[illegible]2; sheriff, McGraw 1281, Cochran 715, Allen 88, Jones 1[illegible]0; auditor, Forrest 1167, Booth 832, Wood [illegible]0, Graves 149; treasurer, Latimer 1172, Thorne 870, Whitehead 202; assessor, Horton 1211, Quitter 6[illegible]8, Twitchell 1[illegible]8, Kelley 114; surveyor, Anderson 1[illegible]7, Surry 70[illegible], Brown 2[illegible]0; superintendent, Percy 1270, Rich 87[illegible], Lowry 111; coroner, Smart 1190, Root 73, Cox 1[illegible]0, Houghton 116; wreckmaster, Shoemaker 1190.

Snow [illegible], Ellis Frost 172; joint representative, J. N. Power 12, Daniel Gaby 176; prosecuting attorney, W. S. Milroy 53, [illegible]; sheriff, J. L. Brown 112, [illegible]; auditor, H. M. Returns from five precincts give Allen 554, Voorhees 417. The precincts yet to hear from are republican and there is surely a majority for Allen. The democrats strongly claim sheriff by seven majority. J. M. Snow, republican joint councilman, is undoubtedly elected. Snow and Clay Brunt have the vote in this county thus far.

The county ticket elected is as follows: Auditor, H. M. Bryant; treasurer, P. C. Williams; probate judge, S. S. Thorp; commissioners, W. J. Gray, J. N. Hatfield, J. L. Gamble; surveyor, B. C. Bonnell; coroner, Dr. N. Henton; superintendent of schools, J. L. McDowell.

It is in doubt whether J. L. Brown, republican, or A. A. Meade, democrat, is elected sheriff. J. N. Power is elected joint representative.

New York World

Obadiah Bates, a Baptist preacher of Shelby county, Alabama, has written a letter which, if it is founded on fact, is of more importance politically than Minister West's famous screed. Obadiah asserts that he has reliable information to the effect that, owing to the wickedness of politicians, the world is to be destroyed next Monday. If his prediction is fulfilled all election bets will, of course, be declared off. It is to be hoped, however, that the Rev. Mr. Bates is only joking. It would be very annoying to have to linger through eternity without knowing how these doubtful states intended to go.

TWO WOMEN RE-ARRESTED

Another Attempt to Solve the Sommerville Murder Mystery

Union Station, Or, Nov 7—Deputy Sheriff James Powell returned last evening from Idaho having the women charged with the murder of John Sommerville at Seattle. The women were arrested two weeks ago at La Grande by local officers on request of Sheriff Bowles of Walla Walla, were held five days and the proper papers not being sent they were released by Justice Ellsworth and departed that night by team to Union, then taking the train East. Sheriff Hamilton and Deputy Powell hearing of their departure immediately took steps to recapture them. Deputy Powell started on the train, finding them at Boise City, Ida., where he arrested them. He succeeded in having them accompany him to Union, where they are now in custody awaiting the arrival of Sheriff Bowles. Both women are ill, Aggie Holloway seriously so. They will be here until they are able to be taken to Walla Walla. The party were on the way to Provo, Utah, when apprehended.

Clark Elder, now in jail in Walla Walla, is the husband of one of the women. She says he was guilty of the crime and he was afraid to appear against him so he intended to leave the country with her, after who also suspected to know anything regarding the murder of Sommerville. The arrest of these women will probably lead to the discovery of another crime, the particulars of which are not yet discovered.

THANKSGIVING PROCLAMATION

Can the Governor Mean This as a Bit of Cutting Satire for Democracy?

Salem, Or, Nov 7—Governor Pennoyer to-day issued the following Thanksgiving proclamation:

The year now drawing to a close has been one of unexampled peace, plenty and prosperity within the borders of our state. It is proper that public acknowledgment should be made to the Great Ruler of the universe for his innumerable blessings. I do therefore designate Thursday, the 29th day of November, as a day of thanksgiving to Almighty God, to be observed by the whole people of the commonwealth as a token of their gratitude for His great mercies.

In witness whereof I have hereunto set my hand and caused the seal of the state of Oregon to be affixed this the 7th day of November, A. D. 1888.

By the Governor, SYLVESTER PENNOYER

George W. McBride, Secretary. Governor

Gov Pennoyer has appointed the following notaries public for Oregon: George K. Clark and DuBois W. Mayer, of Portland.

A STRANGE CASE.

Desperate Means Adopted to Defeat a Candidate for Office

Helena, Mont, Nov 7—The man Burns who was arrested at Missoula last week upon his own confession that he murdered Rombauch, who was supposed to have been killed by Indians September 1 on the trail leading to the Mineral Hill district, is now charged with perjury. It is asserted that he concocted the story for the purpose of injuring the chances of Sheriff Heyfron, who was a candidate for re-election on Tuesday, the object being to create the impression that the officer was inefficient, having allowed him to remain about Missoula for a month. There is proof that Burns remained on the ranch of Esau James from August 22 to October 27 continually.

AN ANGRY WOMAN

She Shoots at a Lawyer Who Called Her a Long Nosed Snipe

Helena, Mont, Nov 7—Lawyer Middleton, who was the democratic candidate for the territorial council from Custer county, narrowly escaped death at the hands of Mrs Staehl at Miles City Monday. The woman says she was driven to desperation by rumors of an attack upon her character by Mr Middleton in a recent speech at Rosebud. She sought him at his office, in which he was in consultation with locked doors. She could see through a letter hole where he was seated and through the opening fired one shot, which narrowly missed him, striking in the chair. The pistol used was of a heavy calibre and the lady was also equipped with a horse whip. The language attributed to Middleton was that the present probate judge was not fit to preside on the bench, as he was weak enough to be led around by the nose by a long nosed little snipe of a woman. This, however, had been so highly colored before reaching the ears of Mrs Staehl as to reflect upon her character. A treaty of peace has been patched up and no further trouble is anticipated.

For the Mines

Spokane Falls, Nov 7—A new and substantial station will be laid off at Kootenai siding station on the Northern Pacific, seventy-five miles east of Spokane, to have a side track, ore sheds and telegraph office. The trade to and from the mines in Kootenai and Pend d'Oreille makes such a station necessary. A forwarding and commission business might be established there with great profit, but there is none. Miners are anxious to have a responsible party there to obviate the absence and neglect of mining operations 270 miles away.

A Young Woman Frightfully Burned.

Albany, Or, Nov 7—A special from Lebanon says Miss Maggie Bauce, while peeling potatoes near the kitchen stove yesterday, was frightfully burned by her clothing taking fire from the stove. Several members of the family were severely burned in extinguishing the flames. It is thought the young lady will not recover.

CLEVELAND'S DEFEAT

Grover Cleveland did not make the issue upon which he has been beaten It was made for him by the controlling force of his party—the Solid South—and he has fallen in the attempt to uphold it

It was believed that the South supported by the great power of the great metropolis of America could carry it through It is not the first time this alliance has met with signal defeat It is an alliance that dates back forty years It had its origin in a community of interest in free trade that the South wished to uphold because it had slave labor to produce cheap raw materials and that New York city wished to uphold because it was engaged in importation of cheap foreign goods Hence the city of New York sympathized with slavery and supported the politics that surrounded it the alliance was not shaken even by the civil war, and the late political contest was an effort to make it again the governing force of the country It has been defeated by the steadiness of Northern men who do not want a policy for the country based on the downtrodden negro labor of the South and on the greed of the importers of the city of New York

For this policy the metropolis gave a mighty vote, but it was beaten by Northern New York just as the alliance was beaten in 1864 when Lincoln carried the state against the vote of the city by 8000 or a less majority than that reported now It might in ordinary times seem hopeless to beat the enormous metropolitan majority of 70,000—a majority greater by far than ever piled up before, but the policy for which the alliance was contending and which the metropolis supported by so vast a majority struck at the interests of the producers of the interior—the men of the farms and forests and workshops—and they have thrown against it a majority vaster still This has settled the state of New York The remainder of the North with the exception of New Jersey and Connecticut which are provinces of the metropolis and Indiana which is of Southern parentage and has always been the hardest of the Western states to hold to republicanism speak with the old voice against the unholy alliance

As the instrument of this alliance Grover Cleveland was opposed and has been beaten He is but an ordinary and commonplace sort of man somewhat of the type of all the doughface presidents whom Northern democracy has furnished In his early life when all the generous and spirited young manhood of the North was resisting the aggressions of the slave system opposing its politics of which the alliance with the city of New York was a part endeavoring to prevent the extension of slavery and later was going through fire and blood to prevent the great conspiracy against human rights and civilization from destroying the nationality of the United States, Grover Cleveland was unmoved not a sentiment within his breast was stirred by the appeal that set every generous nature on fire, he lived a low and lewd life among persons of his own ilk in the vile resorts of Buffalo became a cheap ward politician and was carried by the forces that control his party from one post to another till finally a succession of accidents and crimes including suppression of constitutional rights at the South and a fraudulent count of ballots in the city of New York made him president. But in that position he has failed so signally that though in possession and backed by enormous forces of acquired power he has been unable to maintain his position and now has been rejected and deposed by the people of the United States His subserviency to the politics of the South and of the city of New York, in the days when he was still obscure, has been continued in his conspicuous political life It is the key to his effort to force on the country a tariff policy in the interest of that alliance, it is the key to his effort to return the rebel flags and to all those utterances which show blank insensibility to the principles and memories of the great cause for which patriotism contended during the period that contained the mighty episode of the civil war On these facts (for the tariff did not do it all) votes were thrown against him by hundreds of thousands and he owes his defeat jointly to his own character and history and to the nature of the issues presented The people of the Northern states do not like the alliance between the Solid South and the city of New York do not wish it to be the governing force of the country and do not like the man who is put forward as its figurehead even when he is a great deal better man than Grover Cleveland

The result of the election does not indicate that the tariff is not to be revised and reduced but does indicate that it is to be revised and reduced in a spirit of fair protection to all interests We are not to have the system that the cotton growers of the South and the importers of New York desire but a system that will maintain protection on just principles to the vast and varied industries of the country giving no interest and no section unfair advantages over others Within these lines hereafter discussion of the tariff will be kept and we shall have no more propositions like the Mills bill

MERE FOOLERY

The claims put forth by Chairman Brice of the democratic national committee if not based on criminal intent are perfectly absurd New York has voted for Harrison Of this there is not a particle of doubt though the returns from all the counties are not official But all the newspapers of both parties in New York yesterday morning and evening, gave the state to Harrison and the efforts of the newspapers to get the news and the competition among them to secure fullness and accuracy make any result upon which they substantially agree practically certain Each of the great journals of New York gathers its news through its own agents and in a case of this kind there is the most active and vigorous effort on the part of each to beat all the rest. As a result of this effort on the part of many great newspapers working through different channels to ascertain the result in their state, we have substantial agreement among them that the plurality for Harrison in New York is from 8000 to [illegible]—a plurality too great to be overcome by correction of possible mistakes. The idea that Wisconsin, Illinois or California might help the democracy out is as absurd as the claim that New York may yet be declared for Cleveland Each of these states has a large and unassailable republican majority Mr Brice would do well to close up his head quarters and go afishing He is making a fool of himself and fools of all his followers who are credulous and weak enough to listen to him

THE INCREASING DEMAND FOR FACTORIES

Now that the national campaign is ended thousands of Eastern people who have stayed on the other side of the Rocky mountains held by the fascinations of local as well as national politics and with a natural desire to save their votes will be looking toward Oregon and Washington with a view to emigration hither And great numbers will come during the winter The Pacific Northwest will certainly obtain a large increase in population within the next six months and the people coming will be of a desirable character not the adventurers who flock to mining camps or to any other locality which is suddenly crowded by an excitement but home seekers and business men with their families a stable earnest and industrious people This influx will continue until the population of this region will be dense and it will not be many years until every tillable piece of land in all this great country will be fenced and under cultivation while innumerable mines of the numerous minerals especially coal and iron will be delivering up their wealth and all the vast and opulent resources of the region will be paying tribute to the industry energy and enterprise of man

For all these reasons no man or set of men who contemplate establishing anything in the way of a factory can make a mistake in doing so as quickly as possible There will be a population sufficient to create a demand for everything that humanity consumes and they who first establish factories will be they who shall first strike the road to wealth and success

There are regions of the great West capable of supplying all the material for manufactories where it would be sheer nonsense to establish such enterprises for years to come For example, Central Wyoming has all the material in vast quantities for the manufacture of glass There are lakes of soda great measures of coal and inexhaustible quantities of the finest sand for the purpose but when the glass should be manufactured it would be too far from market to be valuable It would be cheaper to ship the raw material to manufacturing centers at this day

Such a parallel however could not be made with regard to anything that Oregon or Washington contain the material for making The resources for manufactories are great and there is already a population sufficient to create demand for what could reasonably be expected as the product of factories within a year and as the factories increase the population will increase, and thus the demand would always crowd closely upon the supply

WASHINGTON TERRITORY

The republicans of Washington territory by the emphatic majority given their ticket have done only what was expected of them but they did their work well The democrats have been routed everywhere The real issue was the one on which Harrison and Morton were elected and there can now be no doubt that when the territory is admitted to the Union it will be a protection state With a republican congress the admission of the territory is now certain This would not be so certain had Mr Voorhees been elected The territory has thrown itself in line and is in a position to enjoy all the advantages attending the success of the national republican ticket The Pacific coast is now solidly republican and unanimous for the protection of American industries

There were several local contests which were made notable by the emphatic way in which former eccentricities have been abandoned King county has returned to republican ranks Walla Walla Clarke, Whitman and Spokane have joined the procession in a manner most gratifying Pierce county has increased its republican majority

Both branches of the legislature will be republican thus breaking the tie by which the proceedings of the last council were more or less complicated

The republican leaders all pulled together and there remains only one thing yet to be done to make the victory complete The republican leaders should wipe out all differences once for all Only by doing this can the party be placed on such an organized footing that defeat will be impossible They all helped win the victory and all deserve credit

Another point was emphasized too The prohibitionists found their vote cut down beyond even the expectations of their opponents They could only hope to defeat the republican party They failed most conspicuously

BENJAMIN HARRISON

The people of the United States have honored themselves by electing to the presidency a man whose career has been an honor to patriotic citizenship His life has been clean, upright moral and pure he gave his services to the country when men like Grover Cleveland shirked the duty his abilities are attested by the fact that since his nomination he has withstood an ordeal through which few men could successfully pass Since June last he has made eighty public addresses without repeating himself or uttering a word that the most vigilant criticism could turn against him For many years he has been the leader of his party in his state and among the most foremost men at the bar To his own worthiness he owes his position

It would have been but a poor lesson in patriotism and citizenship to the youth of the country if a man like this a man of pure life high purposes and unselfish devotion to duty a man who answered the call of his country when it needed defenders and who has stood in war and peace for the policy that has made his country great and glorious had been passed over for one who has been conspicuously wanting in all the great qualities that have characterized the career of Gen Benjamin Harrison

STANLEY THE EXPLORER

With reports that Henry M Stanley the African explorer is probably safe Eastern newspapers are printing pictures of him which show him to look aged and haggard His life work has been very trying to even so strong a physique as that with which he was endowed and it has been very heroic and of great advantage to the world in geographical and other ways A very few years ago—fifteen or eighteen—Stanley was a young Western newspaper reporter fresh and rosy cheeked and enterprising in his work In Omaha he is remembered as having been thought rather timid than otherwise and there is one man living in that city yet who has worked down from the position of city editor of one of the dailies to the editorship of an almost unknown weekly who has boasted that he browbeat Stanley and altogether it was understood that Stanley was lacking in physical courage The man who gave the explorer this local reputation has kept like a small boat close to shore and Stanley has developed not only the character of a brave hero but that of a man who had an aim in life to do something great for the world, which he has done. It has required the highest order of physical courage, a wonderful capacity for endurance, to do what he has accomplished, and with these a clear head great intelligence and the power to control men Stanley is a much greater man than the one who bullied him

As the count proceeds in Indiana the gains for Harrison continue to grow and it now begins to be very probable that he has carried the state Last night the following dispatch was received here

INDIANAPOLIS, Nov 7
J B Montgomery Portland Oregon Indiana is safe for a good round [illegible]

Mr Wallace is treasurer of the Indiana state republican committee He told Mr Montgomery he would not wire him how Indiana had gone until he (Mr Wallace) was very certain of the result The above telegram was sent in response to the promise made to Mr Montgomery

The republicans have carried the house of representatives The majority is not large but it is a majority If the South had calmly considered the issues presented in the late campaign and considered them in the light of its own and national interests not less than thirty additional republican members would have been elected from that section Perhaps within a few years more loyalty to the politics and memories of the era of slavery may fade away to an extent that will allow things of the present and of the future to have attention

The democratic papers all over the country are bewailing the fact that Cleveland sprang his condition, not a theory upon the people so short a time before the presidential election that the voters could not be properly educated From all appearances it was done too soon at least here in Oregon Last June Linn county went democratic by 148 majority Now it has given a republican majority for the first time since 1862 Perhaps Mr Noltner will please explain

---

When the anarchists at St Louis celebrate on the 11th with a drama detailing the Chicago Haymarket riot and the hanging of Spies and company afterward, it will not do for them to use real dynamite bombs to increase the realism of the riot scene, since such explosions might injure the property of innocent people, but if they would take four of their number and effectually strangle them in the hanging scene they would be doing society a small favor which would invoke proportional thanks

It is gratifying to a patriot of this republic—and they are more numerous than the pessimist is disposed to believe—that the great American public can always be relied upon in the country's hour of danger This government of the people is amply able and thoroughly determined to take good care of itself, and its institutions all of which has been emphasized by the action of the people last Tuesday in taking proper steps to hurl the Confederacy from rule at Washington.

It is said that Minister West is usually a very reticent man and that the extent of his conversation at evening parties is in a general way, "let's have some sherry " Now the Chicago *Herald*—democratic—thinks it strange and much to be regretted that a man so orally mute and diplomatic should have so gushingly poured forth his feelings to Mr Murchison and it wishes that "let's have some sherry " should have been his formula in meeting every diplomatic exigency

---

That band of would be saints who think it better to wish for unattainable good than work to reduce the aggregate of evil, the prohibition party, which is weak enough to think it has great strength, did not even succeed in creating anxiety among the republicans nor in raising hope among the democrats It has not even acquired gratitude from the democrats It has gained the contempt of republicans

---

It was a good sign last Tuesday night as the returns came in favorable to Harrison and a government by loyal people to hear groups of young men shouting Hurrah for our country! and chanting in chorus the national hymn "My country 'tis of thee sweet land of liberty of thee I sing

Gains so considerable are reported from many of the counties of our state that THE OREGONIAN sees no reason to doubt that the majority will be greater than it was in June last We do not see how it can be much less than 6000 and it may be nearly 9000

Clatsop county doubles her majority of June Most of the counties show an increase In Multnomah there is a small reduction On the whole we think the majority in the state will be greater than it was in June

There was a double rain throughout the country on Tuesday rain from the clouds and a rain of republican ballots

LOCAL NEWS OF THE TOWN.

The Delegates Elected to Attend the National Board of Trade at Chicago.

Another Voter for "Old Tip"—A Runaway—Meeting Deferred—Gone to Ireland—Steel Rails—New Directors

An Incorrigible Youth.—The 11 year old boy Charlie McDonald put in charge of the Boys and Girls Aid Society some time ago will be sent to his uncle at San Francisco to-night Young McDonald is the boy with whom so much trouble was had when he was first taken in charge by the society. He claimed to be an orphan without father and mother but later developments show that he has both When a good home was procured for him by the society he stubbornly refused to go but asked to be sent to the penitentiary His uncle will take him from San Francisco to his home in Los Angeles McDonald seems to be as perverted a specimen of youth as can be found and from his talk and actions his schooling in vice and crime (though young) is very thorough His parents had no knowledge of his whereabouts for several years Mr Powers yesterday received a letter from McDonald's uncle with inclosed money for sending the boy from here to San Francisco The boy will be placed under proper surveillance en route for should opportunity present itself there is no question but what he would make an attempt to escape

A Singular Coincidence.—A singular coincidence has come to light in connection with the death of Mrs W J Clooney of Astoria which occurred in this city at 3 o'clock Sunday morning Her death was quite sudden and was caused either by the bursting of a blood vessel or heart disease She was in the best of spirits the night before and there was nothing to indicate that the end was near At the precise hour that she died her canary bird a pet died at the family residence in Astoria It too had been in good spirits all day Saturday singing merrily but towards night its notes became sad and a few minutes before 3 its singing was so plaintive as to be noticeable Then its notes ceased and it was dead

Known by Its Sign.—Since the board of immigration have changed their rooms to the corner of First and Ash streets there has been no sign out whereby the fact could be proclaimed to the public and to an unacquainted stranger Yesterday afternoon half a dozen workmen were seen on the roof putting out the old sign bearing the inscription, "Oregon State Board Immigration" This sign is built on a large scale and being placed out on the side facing First street there can be no trouble for a stranger to find the place where is kept a fine display of Oregon's agricultural products.

The Usual Runaway.—A little after 5 o'clock last night as the evening train was going up Fourth street Mr H J McGee's horse hitched to a milk wagon standing at the corner of Fourth and Salmon streets, took fright and started to run down Morrison street at a terrific speed. The horse ran to Taylor street and then turned to the left towards Fifth As soon as the horse started two men gave chase and being more fleet of foot than the frightened steed the runaway horse was soon caught Outside of frightening several women no injuries were done

Bore a Second Crop.—Mr H Miley, of Wilsonville Clackamas county brought to this office two apples of different varieties which belong to the second crop borne this season by trees in his orchard One apple belongs to the variety known as the Gravenstein and the other the fall pippin The two trees bore a very heavy crop of fruit this season Mr Miley says and all the apples were large and well developed The specimens left at the office are rather small The trees produced a good many apples for the second time this season

Shipping Steel Rails.—Daily shipments are being made of steel rails for the relaying gang of men upon the Southern Pacific between Halsey and Roseburg The present supply consists of 800 tons, which came on the Benjamin Sewall from New York The rails are of American manufacture and weigh sixty pounds to the yard There are three more ship loads of these rails now en route for this port for the company, and it is their intention to continue to substitute steel rails for iron until the whole line is so renewed

Girls Who Bet on the Election.—Several of the young lady students have made a novel wager on the presidential election If President Cleveland is re-elected the Harrison admirers will have to wear black crepe on their arms, a la pall bearer for a week but if Harrison is elected, the Cleveland girls will have to wear the crepe Now girls there are only a few kinds of crepe, and so don't bother the young man in the dry goods store by asking him to show you the fall style. Just ask for the Cleveland brand

Hauled Out for Repairs.—The R. R Thompson was hauled out yesterday afternoon upon the Willamette Ship Building Company's east side ways, for extensive repairs Her hull has been out of gear for some time and the work is very badly needed. Besides having her hull fixed she will be repainted and otherwise generally overhauled The new arrangement spoken of by The Oregonian several days ago with reference to the changes on the Astoria runs has already gone into effect.

A Slippery Walk.—There was some complaint made yesterday afternoon on account of the water and mud on the walk at the side of Woodard, Clark & Co's drug store Either the waste pipe to the fountain built into the side of the building has been stopped up or else some one has left the water running purposely for the walk yesterday was certainly in a very slippery condition Several women were seen to nearly trip up and it was only with great difficulty that they were able to retain their balance

Election Mud.—The walks along First street in the vicinity of the election bulletin boards presented a very mud bedaubed appearance yesterday morning If a herd of cattle had been driven across them there could not have been any more mud left In some places the mud was actually one inch in depth although it was nearly dry and firmly trodden down This also accounts for the many dry places seen on the street The mud has evidently been transferred from the street to the walks

Better Late Than Never.—A Lacy writing from Springwater Clackamas under a recent date says "If it is not too late please add my name to the list of those who voted for Harrison in 1840 I was born in Broome county New York in 1807 so was 81 last August If I am spared until Tuesday I will again as I have always done vote a straight republican ticket I came to Oregon in 1852 and settled in what is now known as Springwater precinct where I have resided ever since

Sudden Bereavement.—Miss Mary C Hill teacher at the Park school received a dispatch from Eugene City yesterday morning announcing the sudden death of her aged father Mr Victor Hill at that place The news was totally unexpected and almost prostrated Miss Hill with grief She left on the afternoon south bound train for Eugene to attend the funeral, and expected to be accompanied by her sister, Mrs E W Bristow of Salem While out of the city Miss Hill's place in the Park school will be filled by Mrs McDaniel

Into Winter Quarters.—Charles B Cardinell was busy yesterday transferring the Waukegan sail boat house from the foot of Morrison street to its winter quarters on the east side just below Duniway's wharf The row boats will not be taken up for winter for some time yet. The P R A are moving their sail boat house into winter quarters also It will lie until spring in the rear of Thompson DeHart & Co's warehouse at the foot of Yamhill street.

Straw in Waiting.—Large quantities of straw are baled up in waiting for transportation along the upper Willamette The paper mill at La Camas is the chief objective point of their movement and the owners of the straw are demanding more boat room The Champion will to-day bring down some 200 bales from Wheatland

Orchestral Union.—This society gives the first of a series of three concerts Friday evening Nov 9 The soloists are Mrs E J Finck, soprano, and Mr E. K. Hoover, tenor. The orchestra will number twenty eight performers.

Delegates Elected.—A special meeting of the board of trade was held yesterday to elect delegates to the national board of trade which meets at Chicago on the 14th inst The Portland board is entitled to two representatives in the national board and Hon D P Thompson and Col John McCraken were elected such representatives It is not expected that more than one of them will go and it has not yet been decided which it will be

A New Wharf.—Joseph Smith the pile driver man, moved his pile driver over the river yesterday to begin the erection of a new wharf adjoining Duniway's upon the north The property is held in joint ownership by Messrs Smith Turnbull and Newell The wharf will be of ordinary depth and 100 feet in length Its occupation is yet uncertain though Mr Duniway talks of leasing a portion of it

The Danube Off.—The Danube expects to sail to day She carries 320 boxes of Oregon apples of the redcheeked pippin Roxbury and golden russett varieties from Mr Wm Dunbar This gentleman also sends 300 tons of flour and as an experiment fifty boxes of prunes and ten of dried apples H E Battin ships 200 boxes of dried apples All these goods are for Chinese and Japanese consumption

A Brilliant Sight.—The uncommon but not unwelcome sight of Mt Hood's distant crest burst through the parting clouds yesterday afternoon and showed a heavy coating of snow which has obscured the dark shadows of the summer's thawing process Its brilliant white, touched with the sunlight, shone in fine contrast with the darker clouds and was marked by many a kindly greeting eye

Meeting Postponed.—The meeting of ministers and the various societies of Christian Endeavor for the purpose of perfecting an associated society of all coworkers in the cause has been indefinitely postponed The meeting was called for to morrow (Friday) night but it has now been postponed until some time next week The date will be made known later

Our Mammoth Tavern.—The greater part of the iron columns and girders are now in position in the north section and central section of the big hotel and the work of brick laying will shortly be commenced on those portions of the building. Contractor Langford was yesterday superintending the putting in of a steam engine and elevator for this work

The Orchestral Union.—Give their first concert of the season to-morrow night at Masonic hall A fine programme of orchestral music will be rendered also solos by Mrs E J Finck and Mr E K Hoover Season tickets for the series of three concerts are $2 50 and can be had at S Harris's 40 First street No tickets for single concerts will be sold.

Who Wins?—Persons holding tickets in lots in Yaquina bay or Fulton park will find it to their advantage to attend the ladies' fair at the St George hotel Articles will begin to be raffled this evening and nothing will be reserved later than Saturday night Several choice donations will be sold to the highest bidder

Special Sale of Flowers.—Mellis & Co have had so many inquiries for flowers that the firm concluded to set next Friday apart for a flower sale Nothing but flowers will be shown on the center table on that day The reduction will be startling New lot of two bit ribbons will be brought down stairs this morning

To Erin's Green Isle.—Mrs Lewiston wife of Landlord Lewiston of the International hotel bade adieu to her many friends yesterday, and took her departure for the East. She will spend some days with relatives in New York city thence sailing to Ireland her native isle where she will pass four or five months

The Blaine Club To Night.—The Blaine club will hold a rousing meeting to night Some of our best known speakers will deliver addresses The latest official dispatches giving the final result of the great political contest will be read to the audience Good singing, as usual. The public are invited

Nanaimo Coal.—Consumers are not to be dependent upon the Danube it seems for this much sought-for article of fuel, for the Al-ki sailed yesterday from Nanaimo with some thousand tons cargo The Willamette has about finished discharging at the east side coal bunkers, and will start back to-day

Parlor Suites.—The beautiful new designs in parlor suites just placed on sale at the salesrooms of the Oregon Furniture Manufacturing Company are so elegant that we cannot refrain from special mention of them The ladies, particularly, should see them before making selections.

Gone to Skomokawa.—The steam schooner Michigan went down about 5 o clock last evening bound for Skomokawa, where she will take on about 500,000 feet of fir and spruce lumber, of various kinds, dressed and undressed, for San Francisco

Towage Service Pressed.—The O. R. & N towage service has been seriously pressed of late, owing to the large number of ships ready and waiting to go down Since Sunday, however, the pressure has been relieved, and the port is now comparatively clear

Mrs Foreman takes this method of announcing to the ladies who have so kindly waited for her to secure a suitable room for children's classes that she can take a limited number each day, after four o'clock P M, at 174 Yamhill street, corner of West park

Been Rebuilt.—The carpenter department of the Southern Pacific east side car shops has been rebuilt and the renewed structure is nearly completed This will give increased accomodation for the company's augmenting repair business

Change of Directors.—At a meeting of the directors of the Oregon & Transcontinental Company held on Wednesday Mr M G Hall and Mr T H Bartlett were chosen directors vice Mr L L Hawkins and Mr F V Holman resigned

For Gray's Harbor direct in sixteen hours take night boat to Astoria connecting with steamer Gen Miles every Tuesday and Friday morning to Aberdeen and other ports

To Be Repaired.—The leaky wharfboat noticed in these columns yesterday is to be repaired by a thorough recaulking of its hull and a renewing of its guards and fenders

Coming Down.—The surface water began to come down yesterday in the river with an extraordinary current accompanied by quantities of floating driftwood

Jackets Again.—J Selling & Co's reduction in braided jackets to $4 30 has made a big hole in the shelves Balance goes to-day at the same price

"WHAT'S THE LATEST ABOUT ELECTION?"

Some of the Many Conundrums Cracked at a Poor Reporter

A curious and inquiring public came near transforming the reporter on his daily rounds yesterday, from a news gatherer to a news disseminator The following one act comedy was enacted in a great variety of scenes and places during the day

Reporter—Anything of special interest to day in your line?

Chorus of manager, clerks and office boy—What is the latest about the election?

Reporter—I haven't been near the office to-day Don't know How about that proposed contract—

Chorus as before (interrupting)—What's latest from Indiana? How about California? Don't you think we've got 'em sure?

Reporter—You know as much about it as I do I tell you Do you wish to make any statement about—

Chorus (interrupting)—What do the lawyers and politicians think about the result? What is the latest from—

Exit reporter precipitately

GREAT SHOUTS OF VICTORY.

Another Large and Enthusiastic Crowd Gathers on First Street.

Fish Horns Enough to Drown the Clamor of Half a Dozen Brass Bands—The Democrats are Still Hopeful

Never in all the history of Portland has there been so much noise as was heard Tuesday night and not until 3 o'clock yesterday morning did the harsh notes of the fish horn cease to be heard and the victorious shouts of the thoroughly hoarse republicans die away. Never has First street held such a crowd interested in the outcome of election as that which gathered where the returns were displayed. Never was so much enthusiasm expressed as when the facts and figures indicated the election of Harrison and Morton. All night the crowd stayed around, now wallowing in the street, now on the sidewalk, which from the constant tramping of feet became every bit as muddy as the street. The republican procession which had formed marched with banners and torches through the streets hurrahing incessantly for Harrison.

Union hall, the republican headquarters, contained a large crowd until long after midnight and the utmost good feeling and enthusiasm were evinced.

WATCHING THE RETURNS

A small but select party of democrats, hoping against hope, taking resolution from despair as Milton put it, watched the minutes of the night at Masonic hall until the big town clock tolled 3 and dispersed with a great cheer for Cleveland and Thurman.

The returns which came in very slowly were anxiously looked for, especially those from New York, which were jotted down, compared and wrought into every sort of mathematical demonstration. Several times the young men who manipulated the figures had Cleveland duly elected and installed only to have their hopes blasted and their air castles smashed to smithereens. However Secretary Noltner considered the returns very encouraging, and expressed himself as confident that Harrison would be unable to overcome Cleveland's majority in New York city and Brooklyn.

Yesterday afternoon the following dispatch was received from the chairman of the national democratic committee and made the local democrats feel better:

NEW YORK, Nov 7.—A. Noltner—At present it looks like 1884 over again. CALVIN S. BRICE

Postmaster Roby also received a dispatch from a friend in New York stating that it was all guesswork as to the result in New York.

MR. SIMON'S CONGRATULATIONS

Union hall, the republican headquarters, was the rendezvous of an enthusiastic crowd all day long. Advices from all parts of the state and country were regularly read and posted. The receipt of the appended telegram from the former chairman of the republican state central committee of Oregon added to the ardor of the assemblage:

NEW YORK, Nov 7.—Hon. L. T. Barin—I congratulate you and the republicans of Oregon upon the splendid victory in Oregon and also upon the general result. JOSEPH SIMON

FISH HORNS ON FIRST STREET

First street, particularly between Morrison and Washington, was crowded all day yesterday and when night came on a throng greater in numbers and more enthusiastic and noisier in spirit congregated between the streets named. It seemed as if the boys of the city had bought up all the fish horns in town and in Oregon for that matter, and the way they blew for Harrison would dwarf half a dozen brass bands of the loudest type. They never tired keeping up an incessant racket for several hours. Two young men, Durr and Mall, carried a big horn about six feet long which emitted a hoarse gruff sound like the fog horns along the coast. It was so long that one had to carry it while the other looked out for the blowing part of the business, both taking turns about in the management of the wind and carrying departments. Half a dozen of the boys invaded Masonic hall, where there were a lot of democrats awaiting the receipt of telegraphic news, and made them think for a while that Gabriel had come to collect a delinquent campaign assessment. Then the boys, to the number of 100, formed on First street and marched about to the tune of "Bah bah bah bah bah."

The next thing in order was a small display of fireworks on a side street.

Big crowds assembled at the republican and democratic headquarters and the Tammany hall to learn the latest.

"Well, we'll know by to-morrow how New York has gone," said a democrat yesterday. "Know!" exclaimed a republican who overheard him. "Why we expect to hear Harrison's cabinet announced by that time."

HARRISON'S ELECTION CONCEDED

The democratic headquarters held open until midnight expecting to receive some cheering news, but nothing came. At 12 o'clock a young man came in with a copy of a private dispatch from San Francisco announcing that the Examiner had given up the fight for Cleveland. Then the headquarters closed.

When C. C. Scott, a member of the democratic city committee, heard the news he was apt to concede the election of Harrison.

THE REMNANT OF A FADING RACE

An Aged Representative of Oregon's Original Inhabitants—An Old Clickitat Berry Vender

On the door sills of the O. R. & N. Co.'s building at the Ash street dock yesterday afternoon sat the bent form of an old Klickitat Indian woman. The suns of three score and ten summers had darkly bronzed her cheeks and the cares and exposure of its many years had completely covered her face with long deep creases. Her faded locks were gathered beneath an antiquated silk kerchief of dusky green; over her bowed shoulders a gaudy but miserable shawl was drawn and her feet, the veterans of many a toilsome march, were encased in home made shoes, rough in material and primitive of design.

She muttered to herself occasionally and smiled or frowned as her meditations warranted. Her packs, three in number, contained a few provisions, a blanket and the net in which she brings her wares to market. A reporter engaged the aged dame in conversation, but her only intelligible utterance was the word "Cascades."

From Captain Mountain, who has charge of the dock, it was learned that this place is her home and that she frequently comes to the city on the boats bringing her nets full of salal berries which she gathers upon the sides of the mountains and laboriously markets about the town.

"At night," said the captain, "she will spread her blanket in the warehouse here and sleep until the morning boat is ready to leave for the Cascades. We often allow her to do this. She is homeless and old and cannot [illegible] much longer."

The last the reporter saw of her she was [illegible] about on her crooked stick talking and muttering to herself, and thinking no doubt of the days when the paleface was unknown, of the wild [illegible] and the peace pipe and the hunt of young braves that sing their songs of war. And the old woman sat [illegible] heedless of the city's busy life throbbing [illegible] unmindful of the great national event which absorbed the attention of all men, of the growth of cities [illegible] of the success of [illegible] whelmed.

NEWS NOTES FROM ELMA

ELMA, Chehalis Co., W. T., Nov [illegible] 1888.

The creeks hereabouts are alive with trout. Many are being caught.

The past month has been a rainy one—a storm almost every day.

All the houses in this place are full and more people are coming daily.

There is a good school here this fall—fifty two scholars are in attendance.

Late potatoes are still in the ground. The crop is prolific. There has been no frost here yet.

Mrs. J. W. Himes, who was in Portland at St. Vincent's hospital a few months ago, to have treatment for a dropsical tendency, and after six weeks' treatment received great relief, is now strong and has as good health as at any time in ten years. Her father, John Chipman, was a Portland pioneer of 1852.

Bear and deer abound in this vicinity. Elk are to be seen in the neighborhood occasionally. Birds—grouse and pheasants—are more plentiful than for many years previous.

There is a railroad graded half way out to the Boyer place—Summit postoffice—from Mud bay, a distance of about twelve miles, two from Shelton headed this way, and the road from Little Skookum bay, and those in charge say their destination is Gray's harbor.

J. W. Himes, who is just in from the woods north of Elma, where he has been selecting timber for the Northern Pacific railroad, says: "I was out three weeks in October, was wet to the skin every day, got dried out at night, slept in a tent and gained six pounds in weight. I found several beds of petrified sea beach mud, containing clam shells, mussel, oyster and a variety of other kinds of shells, two veins of coal, a mountain of gravel, cement, soapstone and sandstone by the car load."

Y. M. C. A. CONCERT LAST NIGHT

An Interesting Musical Programme and Formation of Classes for the Ensuing Year

The announcement of a concert at the rooms of the Y. M. C. A. last night drew out a very intelligent audience composed both of members and friends of the association.

Taking into consideration the excitement around the election bulletin boards and the general enthusiasm that kept many men in a fever of expectancy waiting for election returns, the attendance was very good. The audience was comfortably seated and no crowding was occasioned.

The meeting was called to order by the president of the association, E. W. Allen, at 8 o'clock. The reports of the regular association committees were first read and acted upon, after which followed the musical programme.

From the reports submitted it was shown that the institution is getting into good working order under the new regime of Secretary C. W. Beers.

The first number on the musical programme was a piano solo, "Sonnambula," by Miss Walpole. The piece was well rendered and showed the performer's ability at the instrument.

Secretary C. W. Beers followed with a vocal solo, "The Unforgotten Son," by Farrand, and to an encore responded with "Our Crew," by Campana.

A violin solo, "Tarantella," by Prof. Dobbyn, was the next number. This was given with so much feeling and delicate touch that the professor was obliged to yield to an encore. The encore was a beautiful melody by Moszkowski, and was also received with high appreciation by the audience.

By special request Mr. Beers then sang "There's a Land Far Away," and with his full melodious voice it is but fair to say that he did it justice and received the enthusiastic applause of the audience.

Miss Lalla Dalton presided at the piano, and those who are familiar with her abilities as a pianist need not be told that she played the accompaniments in a most satisfactory manner.

At the conclusion of the musical programme the work of class organization was taken up.

Some forty members joined the educational classes last night and these, with about twenty who joined previous to this meeting, will make a very good sized class for a beginning.

The class in arithmetic, bookkeeping and penmanship will meet every Wednesday evening.

The classes in German and Scandinavian English will meet Tuesday nights and Friday nights.

The classes in music, which will be under the personal tutorship of Prof. Dobbyn, will meet on Tuesday nights.

At the request of Secretary Beers, Prof. Dobbyn gave a little talk in which he explained the scope of the work for the ensuing year. The classes in music will have the privilege to participate in the May festival or series of four concerts to be given some time during the month of next May.

It is expected that at least 400 voices will be heard in those concerts, which are to be the musical event of the year.

There will be classes from Astoria, Vancouver, East Portland and other towns, all participating in the grand festival chorus. It is thought that this city will furnish at least 100 voices. Work in these classes will commence immediately.

The gymnasium classes have changed their meeting night from Tuesday to Monday and will hereafter meet accordingly. An instructor will be engaged as soon as a competent one can be found.

The entertainment closed with the doxology and everyone went away well pleased with the interesting programme.

The evening was an entire success and great credit is due to those having the undertaking in charge.

DR. INGRAHAM ADGUDGED INSANE.

Another Supposed Victim of Salvation Army Excitement Will be Taken to the Asylum

Tuesday afternoon about 5 o'clock a man standing on the corner of Third and Madison streets was seen to act in a very peculiar manner. He argued in a wild sort of a harangue such doctrines as are usually propounded by the followers of the Salvation Army.

At the approach of Officer Chris Lanig the man began to divest himself of his shoes, coat and vest, and had he had more time would have stripped entirely. The man started down Third street at a great speed, followed by a crowd of boys and the officer in a hack. The chase continued up Third street to Montgomery, thence to Front street and down Front to Hall street. Here the hack caught up with the fleeing man and the officer, with the aid of nearly a dozen others, succeeded in getting him handcuffed. He was then taken to the station and placed in a cell by himself.

At the station he gave the name of Dr. E. H. Ingraham. Yesterday afternoon he was examined by Dr. Paul Semler and an order was made to have him taken to the asylum at Salem, whither he will be conveyed this afternoon.

Dr. Ingraham is a well known physician of Clackamas county and has always enjoyed a good practice. His friends cannot account for this sudden freak of insanity and think that he will come out all right after a little quietude and rest.

As he has considerable property both in real estate and in outstanding accounts, Judge Catlin will appoint a guardian. The doctor's insanity is of a mild nature and it is thought was caused by nervous prostration superinduced through Salvation Army excitement. Dr. Ingraham is a native of Virginia and about 50 years of age.

The new opera will be given at three performances, while the entrancing love story, "Ruy Blas," and the bright comic opera "The Carnival of Venice" are also in the repertoire. At the Wednesday matinee "The Bohemian Girl" will be produced at popular prices.

QUIET IN LEGAL CIRCLES.

The Presidential Election Puts a Temporary Damper On Litigation.

Mr. Arthur Sues For an Accounting—Petition for a Street Railway Franchise On the East Side

Yesterday was a very quiet day in legal circles, attorneys and litigants being still in the political swim, so it seemed. Very little was done in the United States and state courts, and the quietude which prevailed on election day precluded activity in the police and justice courts.

SUIT FOR AN ACCOUNTING

J. M. Arthur yesterday began suit in the United States circuit court against Parke & Lacy for an accounting and settlement of his claims against them. He alleges in his complaint that he was engaged about August 1, 1886, to serve the defendants as general manager of their branch store in Portland, and that he was to receive $175 per month, and in addition five per cent of the net profits of their profits in the business done in their stores in San Francisco, Australia and Portland. That in January 1, 1888, this contract was terminated by mutual consent, and it was agreed that he should receive for his services $200 per month. On August 1, 1888, by mutual consent the agreement terminated and he left the service of defendants. Plaintiff asks that defendants be obliged to show what the net profits of their business in San Francisco and Australia were during the time he was entitled to five per cent thereof, and that he be paid what is due him.

NEW SUITS

Emil Weber began an attachment suit against Richard Holton in the state circuit court yesterday to recover $471 1[illegible] for rent of the premises at No. 1[illegible]4 First street and for goods sold.

Russell & Co. sued Daniel Holman and James W. Carl to recover $566 67, due on promissory notes.

FRANCHISE FOR A STREET RAILROAD

The Portland Real Estate Company and thirty three others owning property fronting on Hawthorne avenue, a county road leading from its intersection with Fifth street, East Portland, two and one half miles, filed a petition in the county court yesterday, asking that George W. Brown be granted a franchise to construct a motor line along that road. Mr. Brown in his petition asks a fifty-year's franchise to build and maintain a single or double-tract street railroad to be propelled by animal, steam, electricity or cable power.

DON'T WANT A CHANGE

Hon. Richard Williams, counsel for John D. Wilcox, indicted for attempted extortion, yesterday appeared in the criminal court and withdrew the application to allow the case to go to trial before Judge Shattuck.

POLICE COURT LEVEE

There being no court Tuesday on account of election, quite a number of offenders had accumulated in the city jail during the forty-eight hours from Monday noon till the session of the police court yesterday afternoon. As usual the larger part of them were drunks and vags.

Their cases were disposed of as follows: Charles McClusky, Samuel Rody, John Walpool, Frank Emerson, Hugh Boyle and P. H. Tobin, simple drunks, were fined $2 each; S. M. Hall, Al Perris and Ed J. Kolb, drunks, forfeited $5 bail each; Christ Roe, violating the hack ordinance by driving at night without having the side lights lit, did not appear and forfeited $15 bail; Henry Hynes, vagrancy, 35 days; Charles Ryan, vagrancy, 30 days; Pat McDonald, vagrancy, 20 days; Thomas Rodgers, vagrancy, 15 days; Thomas Saber, vagrancy, $25; John Green and John Clearwater, for roaming the streets, were given 6 and 7 days respectively; Thomas Jones, begging, 25 days; Frank Connors, begging, 12 days; James Wilson, begging, 25 days; James Kearney, begging, 35 days. Mee Sing Yee, arrested for stealing $5 from a countryman, will have a hearing this afternoon. H. Hinson, charged with the larceny of a silver watch and $18 in coin from the person of J. J. Fitzgerald, will also have an examination this afternoon.

SOLD LIQUOR ON ELECTION DAY

Hugh Dennison, a saloon keeper doing business on the northwest corner of First and C streets, was arraigned in the police court yesterday afternoon on a charge of keeping open his place of business and dispensing liquors on election day. Several police officers testified to seeing the place open and hearing people talking inside.

Dennison pleaded guilty but stated that he was not doing any different from what dozens of other saloon keepers were doing. The court stated that as the defendant had pleaded guilty he could only pass such sentence as the ordinance prescribed. Dennison was ordered to pay the lowest fine of $100 and had his license revoked.

SOME FIGURING.

A Very Remarkable Forecast of the Vote in New York

About a week before the election the New York *Sun* published the following article, which we reproduce as a remarkable example of close and accurate figuring on the vote of New York. The only considerable error in the calculation consisted in giving Cleveland too many votes in Brooklyn and not enough in New York.

For the benefit of the thousands of people who are figuring on the probabilities of next Tuesday's election we will make an analysis and comparison of the vote of this state in 1880 and 1884. Inasmuch as that part of the state which includes the city of New York and the counties of Kings, Queens, Richmond and Suffolk has a different ratio of growth, and because it is customary among politicians to make the distinction, we will separate it from the rest of the state.

In 1880, when Hancock was running against Garfield, this was the vote of the state, divided as we have described:

	Hancock	Garfield	Majority
New York	[illegible]015	81 [illegible]	[illegible]
Kings	[illegible]062	[illegible]	[illegible]11
Queens	[illegible]	[illegible]	2 2[illegible]0
Richmond	[illegible]	[illegible]	[illegible]
Suffolk	6 661	[illegible]	[illegible]
Total	[illegible]	[illegible]	[illegible]906
Rest of state	[illegible]	[illegible]	[illegible]
Total	[illegible]	[illegible]	21 0[illegible]3

Garfield over Hancock, 21 0[illegible]

In 1884 the vote for Cleveland and Blaine, omitting other candidates, was thus:

	Cleveland	Blaine	Majority
New York	[illegible]	[illegible]	4[illegible] 0[illegible]4
Kings	[illegible]	[illegible]	[illegible]
Queens	10 [illegible]67	[illegible]	[illegible]
Richmond	[illegible]	[illegible]	1 070
Suffolk	[illegible]	[illegible]	[illegible]
Total	[illegible]	161 [illegible]	[illegible]
Rest of state	[illegible]	4[illegible]9 009	[illegible]
Total	[illegible]	[illegible],001	1 047

Cleveland over Blaine, 1047

The total vote of the state for all candidates outside of this city and the island counties adjacent was 746,561 in 1880 and 776,675 in 1884. The gain, therefore, was something over 4 per cent, and at the same ratio of increase it will be, in 1888, in the neighborhood of 800,000. Garfield's percentage of the vote was about 54¼ per cent in the outside state and Hancock's slightly over 44 per cent. Cleveland's percentage in the outside state was somewhat less than 44 per cent, and Blaine's a little over 51½ per cent.

In the city of New York, as between the two parties, the republicans had 40 per cent to the democrats 60 per cent in 1880, and in 1884 they had a little less than 40¼ per cent, and the democrats a little more than 59½.

In Kings, in 1880, Hancock had about 54½ per cent, and Garfield about 45¾; in 1884 Cleveland 56½ and Blaine 43½ per cent.

In the counties of Queens, Richmond and Suffolk, taken together, in 1880 Hancock had a little under 55 per cent, and Garfield a little over 45 per cent, and in 1884 the percentages were again about the same, with a slight democratic improvement.

The vote cast for Cleveland and Harrison in the city of New York will be about 260,000, in Brooklyn about 140,000 and in Queens, Richmond and Suffolk about 40,000.

Now what will be the respective vote of the democrats and republicans if Harrison obtains the percentages of Garfield:

	Cleveland	Harrison	Majority
New York	156,000	104,000	52,000
Kings	[illegible]	64,000	11,[illegible]00
Queens, Richmond, Suffolk	21,500	18,[illegible]00	3,000
Total	[illegible]	[illegible]	[illegible]
Rest of state	[illegible]	4[illegible]8,000	8[illegible],000

Harrison's majority, [illegible]

If the percentages of 1884 are maintained the vote will stand about like this:

	Cleveland	Harrison	Majority
New York	[illegible]	[illegible]	[illegible]
Kings	[illegible]9,000	61,000	18,000
Queens, Richmond, Suffolk	22,000	18,000	4,000
Total	[illegible]	[illegible]	[illegible]
Rest of state	[illegible]	418,000	64,000

Cleveland's majority, 7,[illegible]

We give these figures just as they came out, leaving every student to draw inferences to suit himself. If the republicans should come down to Harlem river with anything approaching the gain over Blaine on which they profess to count, the election would in all probability be theirs, or if they could increase upon Blaine's percentage in New York or in any other of the island counties of this region of the state, they would win in consequence. But on the other hand Cleveland has only to hold his own percentages as demonstrated in the figures of 1884, to gain a handsome victory now.

Whoever to-day undertakes confident prophecy is either bluffing or has little sense, for the quiet and so far unexpected preferences of 50,000 voters in New York and Brooklyn, whom the machines do not reach and who do not show themselves in any parade, will determine the result. A change in Staten island or Long island, outside of Brooklyn, might settle the question, so narrow is the margin according to all calculations based on the results of 1880 and 1884.

The only thing that can be said with certainty is that both parties have a fighting chance.

How a Rich Duke Spends His Money

Paris Dispatch to the London Daily Telegraph.

Brilliant novelists and dramatists would undoubtedly find a subject worthy of study and description in the person of the Duke of Mondelli, an opulent member of the important Russian colony in Paris. The duke leads a life which resembles to a certain extent that of one of those Roman emperors or Oriental potentates described by picturesque historians. He lives in a splendid hotel in the Avenue du Bois de Boulogne with his mother, Princess Woronzoff, who was a sister of Prince Nicolas Troubetzkoi and a member of the household of the czar before her lawsuit with her nephew, Count Woronzoff, one of the Emperor Alexander's court marshals. The Duke of Mondelli is reputed to have £80,000 a year, most of which he manages to spend in a magnificent manner. He never goes to bed until daylight does appear, and he generally gets up at 3 o'clock in the afternoon. After a meal, and extended at full length on a sumptuous divan, he receives his friends and visitors, his mother, the princess, being present at the levee. On these occasions the duke wears either a superb dressing gown in ivory colored plush lined with satin of the hue of the peach and garnished with silver braiding and ornamented with jewels, or an ample jacket of heliotrope velvet, with gold braided and clasped together with ducal coronets studded with brilliants. When conversing with his visitors the host, it is said, toys with precious stones and diamonds of rare value, but polished and uncut. In the intervals of conversation a band of Neapolitan singers warble the melodious airs of sunny Italy, and these are succeeded by Tzigane musicians who make the ducal halls ring with their native wild and diabolical strains. After each musical performance the leader of the band approaches the divan, kisses the hand of the most noble master of the house and receives his orders for the next *morceau* of demoniac music. Later in the evening the duke repairs to a splendid cafe on the boulevards, where he dines with his friends and listens once more to the fiddlers, to whom he distributes bountiful largesse in the shape of handfuls of louis, while the guests quaff liberal bumpers of sparkling champagne in his honor. Such is an outline of the ordinary life of an aristocrat in this capital, which, despite its Spartan republicans and the lamentations of those who praise past days, is still evidently a rendezvous of the gay and the luxurious.

Marriage and Tobacco.

New York Herald.

George Eliot somewhere makes a remark to the effect that a man who loves a cigar gives it the first place in his affections. The English girl named Watson, who gave her lover the choice between herself and his tobacco, and then, because he chose the latter, sued him for breach of promise, has learned something about human nature which she did not know before. In a monogamous country a man who is wedded to his cigar should not think of taking another wife. If he marries a woman who does not like tobacco, his matrimonial venture will be certain to prove a failure. George Eliot knew men and women pretty thoroughly.

A Proposition to Illuminate East Portland by Arc Lights.

Interesting Teachers Meeting at Sellwood—New Passenger Coach—City "Dads" To Night—New Railway Franchise—Missing Husband

Mr. Hogue will submit to the council at the next meeting, Thursday night, a proposition to put up and operate 100 incandescent electric lights of thirty candle power each for $300 per month, for the term of two years. And to meet the requirement of the city, should there be a general public desire that a system of arc lights be adopted in the immediate future, Mr. Hogue agrees in his proposition that the city may have the option at any time after the 1st of May next to substitute in lieu of the said incandescent lights not less than twenty arc lights of 2000 candle power each, at a cost of $15 per month for each light, or $300 per month for the twenty arc lights, the same amount that the incandescent will cost.

The city is to give Mr. Hogue six months' notice when such change may be required. The city can also continue any number of the incandescent lights that may be desired at the same rate of $3 per month.

The proposal also agrees that the arc lights, if they are adopted, shall be of the Brush system as proposed by Messrs. Lloyd, Burkhard and others, or such system as may be approved by the city council.

The proposition as here summarized seems fair enough and a two years contract is not objectionable. If East Portland is to have electric lights, and there is quite an expression for them, the proposition should be accepted. It may be stated in connection with this matter that the plant Mr. Hogue has put in is but the beginning of an important enterprise, the details of which cannot be made public at present. This much may be hinted. It may not be many months before the cars on the Willamette bridge lines will be propelled by electricity. The matter is being investigated.

TEACHERS MEETING AT SELLWOOD

Your reporter has been kindly furnished the following account of the teachers' meeting at Sellwood:

The teachers' meeting held at Sellwood last Saturday by County Superintendent Wetzell was a decided success and a source of much pleasure and profit to all who attended. These meetings, which are to be held at various places in the county, will be productive of incalculable good to the teachers. They can not attend these meetings without going away thoroughly aroused to the importance of their profession and full of enthusiasm. These meetings deserve the hearty support of every teacher of Multnomah county.

At those meetings Superintendent Wetzell will give the teachers original methods in school management which have grown up with him in the school room. His methods are the result of twenty years' experience, and have been thoroughly tested.

The time of this meeting was devoted to the discussion of "numbers" and "arithmetic." The teachers present freely participated in the discussion, which gave to the meeting much life.

In the evening a most interesting session was held at the Presbyterian church, which was attended by a large and appreciative audience.

The first part of the evening was devoted to songs, readings and recitations by the pupils of the public schools. These exercises were admirably given and showed careful training. After the exercises by the pupils Mr. Wetzell delivered an address on the aims and needs of our public schools, which was listened to with the closest attention.

The interest manifested in this meeting by the citizens of Sellwood is most commendable. It indicates a progressive spirit and a disposition to push their schools to the front. With Prof. Holmes at the head and a progressive school board to back him, the schools of Sellwood will soon take position in the front rank.

This report would not be complete without mentioning the excellent lunch provided by the ladies for the visiting teachers. A table was spread in one of the schoolrooms on which was placed a bountiful supply of good things. It is needless to say that this part of the programme was heartily enjoyed by the teachers.

The next meeting will be held in district No. 4 at Gresham November 17.

NEW ENGLAND DINNER AT ALBINA

The New England dinner given by the Ladies' Social Union of the M. E. church, Albina, election day, for the furnishing of the new church, was a great success. The people of Albina very generously and generally responded to the requests of the ladies for supplies. Ex-Mayor Hill donated the use of an unoccupied store near the polls; other friends showed their interest in many ways. The dinner was worthy of old time New England Thanksgiving days, with their wealth of baked beans and Boston brown bread. The dinner was largely patronized by the citizens, and netted the ladies handsomely. The ladies worked like beavers and everybody was happy. The nearness of the dinner to the polls had a very pleasant home influence on the voting and the polls the entire day.

ONE CAR ON THE TRACK

One of the passenger coaches for the bridge-street railway company was brought up the incline yesterday from the lower part of Dunway's dock to Water street. It was then taken along this street to the railway on N and then put on the track, and taken up to Sixth street. It was no small job to handle the car, and especially to get it on the track at Water and N streets. The car will go into service at once.

APPLICATIONS FOR A NEW RAILWAY FRANCHISE

Yesterday G. W. Brown and others appeared in the county court and made an application for a franchise to build a single or double track railway, the cars to be propelled by animals, steam, electric or cable power, from the western limits of East Portland to Mount Tabor. The application was taken under advisement and the court will view the proposed line of road on Friday.

NOT SHOWED UP

Mrs. Dolridge, the lady who arrived from Kansas last Saturday expecting to meet her husband, is still at the Riverside and has received no tidings of her husband. Her brother also arrived from Kansas, so she is not entirely alone. Naturally she is greatly distressed over not meeting her husband when she came, or at least receiving some tidings of him since arriving.

CITY COUNCIL

The city council last Monday night adjourned to meet this evening for the transaction of general business. Several matters will come up, including the electric light question, as the proposition from Mr. Hogue will very likely be presented.

THE REPUBLICANS REJOICE

A large number of republicans paraded the streets last night with torches and horns. It was an expression of joy over the good news received and the vastly augmented republican majority on the east side.

THE REPUBLICAN VICTORY

PORTLAND, Nov. 7.

To the Editor of The Oregonian:

Now that the political contest is over and Harrison and Morton are elected, let not our democratic friends North or South lose any sleep. The old party that stood firm when our country trembled in the balance of war will go forward in the future and nourish the best interests of the country. They will know no North, no South, no East, no West. They will remodel the tariff in a manner that will give us revenue and still protect the American laborer and American industries. As in the past, they will assist in practical legislation in favor of restricting the sale of intoxicating liquors.

Let our Southern friends shake the moss from their backs and get "head and shoulders" above the Calhoun idea that all they could do was to raise cotton with cheap labor and ship it to England in exchange for goods they desired cheaper by forcing the free trade dogma upon the American people. Let the Southern people be encouraged by Northern capital, genius and energy, and they will build factories on her streams, and through our system of protection we will manufacture this cotton and export the goods to all parts of the old world. The South will then soon teem with wealth, her young men will develop into industrious citizens and cease to despise those who labor; and her cities will expand and develop as has the glorious North under republican rule and protection during the last twenty years.

We will now do justice to Dakota and Washington territories, and admit them as bright stars to our constellation of states.

We must and will revise our naturalization laws and allow no man to cast a vote in favor of a law until he has become a citizen and sworn to protect the laws and the flag that waves over him.

We will revise election laws and in the future as the past unite upon a free ballot and an honest count. With Dakota and Washington territory admitted as states the republican party can count upon a long lease of power. But let them beware of all abuse of power to their [illegible] great mass of intellectual thinking and [illegible] Americans who are ready to step to the other side if occasion demands it.

The republican party has a glorious record. My father, like many others, voted for that noble man and patriot Lincoln, and it is all the title of nobility any young man can desire to know that his father stood with Lincoln, Grant, Sherman, Sheridan, and fought that this country and Union might live. There is yet a certain element in this country who still think South Carolina is larger than the United States. It is not so. We are a nation with a big N, and that question was settled in part by Webster and in full by the sword.

England has no more love for us than she has for Ireland, and she would rejoice to see us rent asunder and under her heel. English aristocracy and manufacturers desire to thrust free trade upon us that she may have our fertile field for her wares, little caring for the interests of our laborers and whether their children are fed or not. The laboring masses of England strongly oppose free trade, as they well know it continues to make the poor man poorer and the rich richer.

For these reasons alone the intelligent masses of America have arisen and marched to the polls and cast their vote for Harrison and Morton and protection to American industries. They have no love for England, who sought our life between the years of 1861 and 1865, nor for any party who bows to John Bull and the Cobden club. L.

ADVANTAGES OF A DOUBTFUL STATE.

Are Six Union Soldiers for Sale?—Some Remarkable Figures.

Indiana Tribune.

If doubt exists as to an attempt by the present administration to influence the soldier vote in Indiana, a study and comparison of the work of the pension department of the last two years, as shown in the annual reports of Commissioner Black, will speedily remove it. We present the following official figures of the number of men furnished for the war by six states which are known as reliably republican, and the number of original pensioners added to the rolls from them for the one year ending June 30, 1888, and the number of men furnished by the doubtful state Indiana and the number of similar claims allowed to it:

	Number of men furnished	Pensioners added during year
Pennsylvania	3[illegible]7 146	1,991
Ohio	[illegible],180	4,182
Wisconsin	[illegible]	603
Vermont	[illegible]38	245
Rhode Island	23 236	99
New Hampshire	[illegible]	355
Total	8[illegible]2,004	7 475
Indiana	1[illegible]6,[illegible]53	7 936

In plain words one doubtful political state, which furnished 200,000 men, is granted 8000 pensions, while six safe republican states, which furnished 800,000 men, is granted but 7500 pensions.

The evidence of an unfair discrimination is complete. Not that those who have had their claims allowed in Indiana have received that to which they are not entitled, but that other states just as fairly entitled to these allowances have been neglected. One may readily conclude that if Indiana had been safely and reliably in the majority for either party, it matters not which, it would not have received such disproportionate consideration. For what reason has this course been pursued? We can find but one reply, and that is to influence the soldier vote.

SHERMAN'S BOLD FORAGERS.

How They Fought the Enemy and Fed the Great Army on Its Way to the Sea.

The Century.

We were proud of our foragers. They constituted a picked force from each regiment, under an officer selected for the command, and were remarkable for intelligence, spirit and daring. Before daylight, mounted on horses captured on the plantations, they were in the saddle and away, covering the country sometimes seven miles in advance. Although I have said in the saddle, many a forager had nothing better than a bit of carpet and a rope halter; yet this simplicity of equipment did not abate his power of carrying off hams and sweet potatoes in the face of the enemy. The foragers were also important as a sort of advance guard, for they formed virtually a curtain of mounted infantry, screening us from the inquisitive eyes of parties of Wheeler's cavalry, with whom they did not hesitate to engage when it was a question of a rich plantation.

When compelled to retire they resorted to all the tricks of infantry skirmishers, and summoned reinforcements of foragers from other regiments to help drive the "Johnnies" out. When success crowned their efforts the plantation was promptly stripped of live stock and eatables. The natives were accustomed to bury provisions, for they feared their own soldiers quite as much as they feared ours. These subterranean stores were readily discovered by the practiced Yankee eye. The appearance of the ground and a little probing with a ramrod or bayonet soon decided where to dig. Teams were improvised, carts and vehicles of all sorts were pressed into the service and loaded with provisions. If any antiquated militia uniforms were discovered they were promptly donned, and a comical procession escorted the valuable train of booty to the point where the column was expected to bivouac for the night. The regiments of the past, even to those of revolutionary time, were often conspicuous.

On an occasion when our brigade had the advance, several parties of foragers, consolidating themselves, captured a town from the enemy's cavalry and occupied the neighboring plantations. Before the arrival of the main column hostilities had ceased, order had been restored and mock arrangements had been made to receive the army. Our regiment in advance was confronted by a picket dressed in continental uniform, who waved his plumed hat in response to the gibes of the men and galloped away on his bareback mule to apprise his comrades of our approach. We marched into the town and rested on each side of the main street. Presently a forager in ancient militia uniform indicating high rank debouched from a side street to do the honors of the occasion. He was mounted on a Rosinante with a bit of carpet for a saddle. His old plumed chapeau in hand, he rode with gracious dignity through the street as if reviewing the brigade. After him came a family carriage laden with hams, sweet potatoes and other provisions, and drawn by two horses, a mule and a cow, the two latter ridden by postilions.

THE TONE OF THE WOOL MARKET

The Boston wool report speaking of the wool market at home and abroad says

There has been a good demand for domestic wool for the week and the sales are again quite large The prominent feature are still found in fleece wool which are very active and held at higher prices than previously reported Territory wools are firm and no higher owing to the disposition of owners to let their supplies go at current prices while on the contrary the bulk of the stock of fleece w... is held off the market and there is therefore a ... scarcity of these kinds The events of the week in the wool trade have ... more confidence ... which is expected to ... as supplies are still further reduced The total transactions of all kinds of wool have been 4... 800 pounds for the week From Western markets come strong reports The balance of the spring clip is held very firmly and is not offered to any extent ... [illegible] ... The clip is said to be in better condition with plenty of buyers ... for it ... [illegible] ... fall wool with local scourers the principal operators There have been sales at ... for heavy defective 1 ... for average and ... for wools in good condition There has been very little bought for the seaboard at these prices and all the free mountain wools are said to have been taken by scourers to mix with Oregon as usual Foreign markets are all very firm and are furnishing a good support to the situation here The Antwerp sales which opened during the week recorded an advance of 10 centimes the first day and since then all the advices received report a keen competition and an advancing tendency The latest dispatch says There was a full attendance at the wool sales River Plate was not ... notably altered Australian fetched full prices as compared with those obtained at the last London series of sales and there was a brisk demand to secure lots at the advance Twenty eight thousand bales were offered The cable advices from Melbourne have been rather limited owing to the wires not working One firm here received a dispatch quoting an advance of 1d to 1½d but this report was not confirmed owing to the interruption of communication It is quite certain that at all the leading points abroad there is a disposition to speculate in wool in anticipation of higher prices being forced from the American consumer Should this be the result the effect on domestic wool here would be seen in higher prices than are now apparent

THE NEW YORK HOP SITUATION

The receipts and exports continue on a very large scale the former being considerably augmented by heavy arrivals from the Pacific coast but as most of these hops are booked through for London account they will not come upon this market to increase our already liberal supplies While the demand from brewers has been very slow exporters have been hard at work, and the market at this writing shows a very strong under tone A feature worthy of notice is the demand for second grade of states a little rust or indifferent picking is overlooked if the hops are well conditioned otherwise and the samples show a rich edge for this class shippers will pay ... and 20 cents But a bright yellow clean picked sample will always take the eye of the exporter and as such hops are extremely scarce in States, buyers naturally turn their attention to Pacifics in which Oregon seems to take the preference so far this season and the demand for them for the last few days has been lively from which it is inferred that some of the early shipments have reached London and are meeting with favor on the Borough There is still considerable life to the interior markets but the 30 cent point seems to be a thing of the past Twenty six cents is now about the best price paid for choice A better demand is looked for from brewers after the election many of whom by that time will run short of stock and will have to come in and replenish There is at present no good or sufficient grounds for the hope of seeing better prices although there may ... shortage in the world's supply, brewers will manage by look and ... and by strict economy in the use of hops to bridge over to another crop The few new German hops arriving here are immediately placed with the brewers who have ordered them The imports this year will be small as England will want all that Germany can spare The demand for old hops has dropped away entirely—Wells Gregor

LONDON GRAIN LETTER

The London correspondent of the Northwestern Miller writing under date of October 22 says

There is a very quiet feeling in the wheat trade just now, but it is not devoid of steadiness, the general impression being that a slight period of depression caused by present superabundant supplies will be quickly followed by a recovery later on in the season Meanwhile the movements in the American markets are keenly watched, as they are likely to give the clue to the next movement here At present values in America are still several shillings higher than the comparative price on this side which if maintained, means that we shall not decline much here, even temporarily which we otherwise would likely enough do under the pressure of the recent heavy arrivals Thus during the past six weeks say since the opening of the new season the imports of wheat and flour into the United Kingdom with the farmers' deliveries in the whole of the kingdom, have been as follows in addition to the estimated consumption during the same period

	1888, bus	1887 bus
Foreign wheat	16,684 472	10 56... ...8
Foreign flour	5 9...6 2...	...
English wheat	5 823 264	10,348 968
Total	28,432,968	27,346,048
Consumption	... 800 000	23 600,000
Added to stocks	4 63... 968	...46,048

STOCKS IN U K

Wheat and flour in first hands in September	11 000 000	20 800 000
Present stocks.	18 632 968	4 ...46 048
Quantity afloat for U K	18,968 000	1... 8... 000
Total supply	...7 600 968	26 418,048

From the above it will be seen that while the supply of home grown wheat in this period has been 4 520 000 bus less than last year the imports of foreign wheat and flour were about 5,600,000 bushels larger than last year The result is that stocks have increased and with the simultaneous increase in the quantity afloat, the present total quantity in store and afloat is actually rather larger than at this time last year This is a direct result of the recent advance in prices, which has attracted unusually large shipments from the Pacific slope, from whence, of course there will be all the less to come, as well as from Russia and Australia. Russia, however, has been our chief source of supply, we having imported over 800 000 bushels per week from that country during the past four months We are now approaching the close of navigation in the south of Russia which will cut off most of the supplies from thence, until spring and with India sending very moderate quantities, it is difficult to see from whence we shall receive the necessary large supplies during the first quarter of 1889 In that period, therefore, I shall expect to see lively markets, especially if the Atlantic ports continue to withhold the moderate but necessary quantity we expect to receive from them Meantime as I have already said we are overloaded with supplies temporarily and as new English wheat in fair condition is selling at the comparatively low price of 31s@33s per 504 lbs, delivered at the mill, foreign wheat, which ranges from 6s to 43s per qr is comparatively too dear and certainly will advance very slowly France ... is buying very moderately just now but is evidently only waiting for a little decline to come in and buy what is necessary This she will probably have to do in the first part of 1889 In South Australia the new crop is a very poor one according to our latest telegrams the season having been very dry The yield per acre is not expected to exceed 4 bushels against 10 bushels last year and the surplus for export which was last year 500 000 tons will probably be reduced to 100,000 tons. The London flour market has been very quiet this week Few fresh purchases have been made, mainly because the American millers ask prices much too high Pillsbury's straights ship are now worth only ...s per 280 lbs while ... ... is offered at ...s 6d to ... which is too dear FANIS

LONDON Oct. 22.

The Merchandise Market

The market remains about as last week The excitement attending the presidential election has had a demoralizing effect on business Sugars have declined another ⅛c and Arbuckle's roasted ⅛c The San Francisco Commercial News in a review of the market, has the following

The week past has witnessed more than the usual number of changes, although none of them have been of special importance Business has been less active also than for some weeks past, owing chiefly to the near approach of the election, which merchants throughout the city will gladly see one of the things of the past

Receipts of Island rice have been liberal and sales from the wharf have been made at $4 6... per hundred, while from warehouse $5 remains the quotation Mixed rice is lower, selling at $4 20 per two mats, and medium No 1 has also been shaded and cannot now be quoted above $4 87½ per two mats.

According to advices from China floods have destroyed in a great measure the peanut crop of that country, and as a consequence prices for nut oil have naturally advanced there. The local market has been favorably affected by this news, and on its receipt about 7000 cases changed hands at 60@60¾c, and at this writing the same article is quoted at 63½@65c and firm Cheaper grades advanced from 50c per gallon to ...c, with holders firm in their views.

During the week the trade has again been treated to several changes in the price of sugar, each alteration lowering the quotations. On the 30th both refineries reduced the price ⅛c, on 31st ⅛c, and yesterday another ⅛c was chopped off.

The market for chemicals is very dull with free supplies and prices in buyers' favor

Spices remain steady with a fair demand

Canned fruits are firm and in good request at steady rates. Receipts of salmon are heavy and while most of the round lots have been placed, there are many small lots ... about which are not easy to dispose of at current quotations. The Alaska pack is turning out larger than estimated and some believe it may reach 425,000 cases

The bag season is over and attention is turned to supplying next year's wants As usual at this season the Calcutta market is reported higher both for bags and bagging material and it is said goods cannot be laid down here probably at 7¼c a figure at which considerable sales have been made for next season's delivery

Coal is firm and shows no sign of being cheaper in the near future A cable from Australia via New York received yesterday reports that the coal strike in Australia has terminated Metals are without change

THE HONORABLE CITY DADS.

Police Judge Dement Steps Down—A. H. Tanner Appointed His Successor.

The "Hack Driver" Ordinance Passed—Drivers and Express Agents to be Licensed and Taxed—The Usual Grist Ground Out.

All the members of the council were in their seats last evening when the meeting was called to order by Mayor DeLashmutt who commenced the business by announcing that he had the honor of appointing Mr A H Tanner police judge of the city of Portland

A motion to confirm the appointment was carried by eight votes Mr Forbes voting no

The committee on accounts and current expenses, who have had the matter under consideration for a long time submitted an ordinance regulating hacks and fixing rates for carrying passengers

It provides that hacks shall not be allowed to stand within ten feet of any street crossing nor more than two feet from the sidewalk nor in the street upon the half thereof adjacent to any premises in front of or upon which a notice shall be posted on a conspicuous place containing the words, "No hack allowed to stand here" either written or printed, so as to be plainly distinguishable from the sidewalk

In regard to rates the ordinance provides that the fare in a hack drawn by more than one horse when ordered for immediate use shall be 50 cents for each passenger when ordered at a fixed time for one or two passengers $1 and for each additional passenger 50 cents within the following very zigzag limits Beginning at the front where Marquam's gulch sewer enters the river running along the sewer westerly to South Sixth street thence to Sheridan to South Seventh to Caruther to East Park to South to Ninth to Jackson to Tenth, to College to Twelfth, to Hall, to Thirteenth, to Montgomery, to Fifteenth, thence along Fifteenth Chapman and Fourteenth streets to B out B to Twenty first down Twenty first to B and along B to the river,

Outside of the above limits and within the city limits double rates may be charged, excepting when hired by the hour

Every vehicle excepting railroad or street cars used for conveyance of persons by land shall be deemed a hack

The ordinance provides that hacks shall carry lamps, and that section 2 of the ordinance which prescribes the limits and rates shall be posted conspicuously in all hacks

A penalty for violation of the provisions of this ordinance is provided for by fine of from $5 to $100 or imprisonment from three to fifty days and any hack driver violating the provisions of the ordinance shall forfeit his license as a hack-driver and no license shall be issued to such driver for six months

The ordinance was read a first and second time, and on motion of Gerdes the rules were suspended, the ordinance put on its final passage and passed by a unanimous vote.

An ordinance was also introduced providing that hack-drivers shall pay a license of $1 per month This was also passed under suspension of the rules and it now begins to look as if the hacks and hack-drivers are to be regulated to some purpose

Ordinances providing for licensing express agents and persons selling cakes candies etc., from stands on the streets were also passed.

An ordinance granting the Transcontinental Street Railway Company the right to construct maintain and operate tracks on the following streets was read and passed

From Ninth and Morrison streets along Morrison and North Eighteenth streets to B street and on Fourteenth street from Morrison street to Yamhill street, and thence along Yamhill street to Ninth street

It was moved to refer the ordinance to the committee on judiciary but Mr Woodward, who is a member of that committee objected as he was an officer of the railway company and moved that the matter be referred to the street committee which motion carried

Mayor DeLashmutt suggested that it be referred to the committee to which an ordinance granting the Multnomah Street Railway Company a franchise was referred in the long ago which suggestion caused some laughter

The committee on ways and means presented a report stating that they have considered the petition of the California Electric Lighting Company, Charles R. Lloyd agent, praying that the lighting of the city be submitted for bids at the earliest date possible, and that they have conferred with Mr Lloyd as to the benefits to be derived by the city from granting said petition, and have learned nothing definite, and therefore recommend that further consideration of the petition be indefinitely postponed.

In connection with this matter the committee report that they have received a proposition from the Electric Lighting and Power Company who offer to erect sixty additional arc lights of 2000 candle power at such places on Front Second, Fourth, Fifth and Sixth streets as the council may designate within thirty days from the acceptance of the proposition the price per month with those now in use to be $15 each

The committee adds "This appears to be a reasonable proposition and we think it will be greatly to the advantage of the city to have additional arc lights on the streets named many property owners and business men on said streets having within the past year petitioned for such lights and urged their erection as necessary"

Gerdes opposed a motion to adopt this report on the ground that the proposition of the Electric Lighting and Power Company had not been regularly submitted to the council, and on motion of Mr Farrell the report was referred back to the committee.

CONDENSED ROUTINE REPORT.

PETITIONS

From A. H. Maloney asking for a correction in his assessment for the sewer in Sherman street referred to street committee

From G G Gourmans, stating that his block No 106 in Caruthers addition is assessed for the improvement of South Front street many times what the benefit to the property is and asking that his assessment be reduced same reference

From W T Hume executor of the estate of A Hamilton asking to have his name withdrawn from a petition for the improvement of Thirteenth street, as it was signed under a misapprehension, and he has no authority to sign such a petition, referred to judiciary committee

From S Richardson and others asking that South Water street be improved from Grover street to First avenue referred to street committee

From R J Stewart and others, asking that a sewer be constructed on F street from ten feet west of North Twentieth to ten feet west of North Twenty first street Referred to street committee

STREET LIGHTS ASKED FOR

Mrs H Mason and others asked for street lamps on G H and I streets between North Nineteenth and North Twentieth and between North Eighteenth and North Nineteenth on G street The Northern Pacific Terminal Company asked for an arc light at the intersection of Fifth and I streets and E Quackenbush and others for an arc light at Tenth and Morrison Referred to street committee

Frank P Knight offering to present to the city the grizzly bear and its cage now in the city park which he says would form an interesting attractive exhibit accepted Gerdes voting no

REPORTS

From the committee on ways and means recommending that a license for exhibiting a Japanese panorama for the current quarter be issued to F Hayward, as part of the proceeds are devoted to a charitable purpose adopted

From the committee on streets recommending that a petition for the establishment of the grade of Fourteenth street from Jackson street to Elizabeth, be granted also that the grade of Johnson street be established at St. Clair 188 feet above the base of city grades, adopted

From the same refusing the petition of Baum & Brandes for leave to place an easel sign on the sidewalk as it would be an obstruction to public travel, adopted. [It will now be in order for the police to see that other easel signs which obstruct the sidewalks are removed.]

Declaring the probable cost of improving G street from North Twenty second to North Twenty-third passed

Ordinances making an appropriation of $1000 out of the general fund to prevent the spread of infectious and contagious diseases and $750 for the expense of assessing the cost of street and sewer improvements were passed

An ordinance making an appropriation out of the general fund for repairing streets and bridges was read twice

Providing for licensing vehicles used by street scavengers at the rate of $10 per quarter for one horse carts and $12 per quarter for two horse vehicles [This awoke quite a lively discussion Gerdes thought $5 per quarter was enough]

Fleidner said the scavengers were willing to pay a license if the crematory was built within a reasonable distance but he had been informed that it was to be located some distance below the city He thought the contract should not be signed until it was known where the crematory was to be located Scavengers would not go to the crematory if it was too far away and the city would be paying for cremating garbage without receiving any benefit for the money expended

Gerdes insisted that the committee must sign the contract and had no right to say where the crematory should be located It is understood that Mr Burkelbach intends to establish a hog ranch at the crematory and it looks as if Gerdes was to have some of the hog

The mayor finally declared the discussion out of order and the matter was dropped

NEW ORDINANCES

Providing for the time and manner of improving N street from North Tenth to North Front passed

Providing for the improvement of South Water street from Grover to Curry read twice and changing and establishing the grade passed

Declaring the probable cost of improving F street from North Twenty first to North Twenty third and making appropriation therefor read twice

RESOLUTIONS

From the committee on commerce stating that they have been informed that the name of the tug Hermina has been changed, and ordering Frank E Vaughn to explain why this change was made

[The Hermina was leased by the city to Mr Vaughn and some time since was burned to the water's edge She has since been rebuilt and named "Louise Vaughn"]

Giving notice of intention to establish the grade of Fourteenth street from Jackson to Elizabeth and also the grade of Johnson street at St Claire street, adopted

Accepting the improvement of A street from Third to Fourth, adopted

Accepting the sewer in H street constructed by V Hepp

Directing the superintendent of streets to give notice by publication in each of the daily papers that unless property owners trim the shade trees on streets in front of their premises by cutting off all branches which are less than nine feet above the sidewalks as specified in ordinance 2060 the same will be trimmed by order of the common council at the expense of the respective property owners

Farrell said if trees were to be trimmed up awnings ought to be trimmed up also

Fleidner said if canvas awnings were put up nine feet they would be of no service After some discussion the resolution was referred to the judiciary committee adjourned

OREGON HORSES FOR EXPORT.

First Installment of the Winter Shipments to the San Francisco Markets

At 2 30 P M to-day there will arrive from Albany sixteen horses designed for shipment to San Francisco They will be at once taken aboard the State of California, where stalls have been prepared for them

This is the first installment of the winter's exportation of horses for the California markets It is not known here how many have been shipped from the upper valley by the Yaquina route but none have gone from here It is stated by local horse breeders that more favorable rates have been obtainable by that route than this one though an impression prevails that this is no longer the case

The increase of Oregon's annual breeding of horses is much more than keeping pace with the local demand Each succeeding year betters the quality and enlarges the number of our marketable horses. The exhibits at the recent fat stock show, but more particularly the aggregation here of highly bred horses at the fall race meeting has demonstrated beyond any question the important position which Oregon is acquiring in this industry

It is not true however that any great number of blooded horses have been or probably will the present season offer for shipment. The rank and file of horses which we are able in several hundreds to put into San Francisco each winter consist chiefly of mixed Clydesdales and Percherons for draft purposes though roadsters of Hambletonian descent are not uncommon

There is a steady and increasing demand in San Francisco for draft horses to fill the rapidly depleting ranks of the city's hard driven equine forces This is operating and advantageously so to stimulate the breeding here of horses, and augment the development of this important and profitable industry

SHE WANTED A MUDDY HORSESHOE

The Method Adopted by a Portland Woman to Secure a Luck Dispenser

A well dressed woman of middle age stood on the curb in front of the Abington building on Third street yesterday afternoon and looked longingly at some object which protruded just far enough out of the mud to be visible

"Here sir" she said to a young man who was passing "would you kindly get this for me?" she continued, pointing at the object in the mud

The young man bowed politely and lifted his hat looked at his shining shoes then at the mud and rolling up his trousers above his shoe tops waded out and extracted a slimy horseshoe which the lady reached for when he returned to the sidewalk

"I will clean the mud off it in a moment and give it to you" he said

"Oh pray don't" exclaimed the woman "That would spoil the charm They say a horseshoe is lucky but all the luck goes with the removal of the mud"

With a profound bow, and sincere expression of thanks she took the horseshoe mud and all and started up the street
